Similarly, statements that describe our strategies, objectives, plans or goals are also forward-looking statements. Important factors that could cause actual results to differ materially from our expectations include, but are not limited to, the following:

- a) We plan to consolidate our hotel properties across Southern India to strengthen our presence in this region. At the same time, we are actively pursuing expansion opportunities in Northern and Western India, focusing on major business hubs and popular leisure destinations. Correspondingly we plan to use ₹ 1,679.24 Lakhs from proceeds of fresh issue towards our expansion strategy. We may not be able to execute our expansion plans successfully which could impact our business and profitability.
- b) The hospitality industry is experiencing strong tailwinds given trajectory of economic growth of India and private consumption driven by socio-economic factors such as demographics and urbanization. India’s mid-scale hotels market generated a revenue of ₹ 316.3 billion in 2023 and is projected to expand at a CAGR of 9.0% from 2023 to 2029, reaching an estimated revenue of ₹ 530.1 billion by the end of the forecast period (source KEN Research)

- e) A majority of our properties are operating under Sarovar Brands /Royal Orchid Brands pursuant to the franchise/trademark license agreements with the Sarovar/Royal Orchid, and we are subject to risks, including non-renewal, termination and disputes, associated with such contracts.
- f) Out of the portfolio of 16 operational hotel properties as of September 30, 2024, a significant portion of such hotel keys and revenue from operations is derived from hotels properties concentrated in the city of Bengaluru (Karnataka) and Tirupati (Andhra Pradesh). Any adverse developments affecting these hotels or the regions in which they operate, could have an adverse effect on our business, results of operation, cash flows and financial condition.
- g) We are subject to extensive government regulation with respect to safety, health, environment, real estate, food, excise, property tax and labor laws. Any non-compliance with or changes in regulations applicable to us or failure to obtain, maintain or renew our statutory and regulatory licenses, permits and approvals required to operate our business may adversely affect our business, results of operations, cash flows and financial condition.
- h) Negative customer experiences or negative publicity surrounding our hotel properties could have an impact on ability to source customers. Thus, we may also incur higher expenses towards business promotion in the future, to source more customers which may have an adverse impact on our business and financial condition.
- i) Changes in travellers’ preferences due to cost of travel, spending habits, competition from alternative accommodation, and other factors may adversely affect the demand for hotel rooms, thereby adversely impacting our business, results of operations, financial condition, and cash flows.

- j) Our business is capital intensive and may require additional financing to meet those requirements, which could have an adverse effect on our results of operations, cash flows and financial condition.
- k) India's mid-scale hotel market is highly competitive and our inability to compete effectively may adversely affect our business, results of operations, cash flows and financial condition (*source KEN Research*)

Pincode- 600017	1 st Year, - Fit out Period (30 days)- No Rent - Next month onwards- ₹ 12.00.000 plus taxes Thereafter, - An escalation of 20% every 3Years.	Hotel Grand Continent - T. Nagar

Our continued operation of these hotel properties is dependent on our continued enjoyment of these leases and licenses. Since the lease or license agreements are subject to renewal from time to time, there may be increases in lease premium/rentals payable due to factors such as inflation, increased competition in the property market or other market forces. Any breach of the terms and conditions set out in these lease or license agreements could result in penalties and may adversely affect our rights over such properties resulting in us failing to secure renewal of these arrangements. We cannot assure you that we will be able to fully comply with all the terms of the lease deeds or leave and license agreement which we have entered into in relation to these properties, renew such agreements or enter into new agreements in the future, on terms commercially favorable to us, or not renew at all. For instance, our hotel property at Anjuna, Goa, have been licensed to us by the original licensor who have been authorised by the landlords vide Memorandum of Understanding dated October 13, 2022 (“MoU-Anjuna”) to enter into any leave and license agreement in respect of Grand Continent – Anjuna. Although the landlord has agreed to enter into sale deed with the original licensor within 90 days of execution of the MoU-Anjuna, however, no such sale deed in respect of Grand Continent – Anjuna has been executed till date. Further, our hotel property at Morjim, Goa, have been sub-licensed to us by the licensor who have obtained the property from the landlords vide leave and license agreement dated December 21, 2022 for 12 rooms guest house and construction of additional rooms upto 40 rooms.

While we have not faced any instances of disputes (including receipt of any default letters) from our lessors/licensors in the stub period ended September 30, 2024 and Fiscals 2024, 2023, and 2022, in the event that any lease deed or

license agreement is terminated due to our non-compliance with its terms, among others, for non-payment of lease rental, subcontracting of commercial operations without consent of the lessor, appointment of receiver or not renewed, we will be unable to utilize such properties for our business and we may be unable to benefit from the existing capital expenditure and investments made by us in such hotels. Further, we may be required to allocate time and financial resources to vacate such premises which will disrupt our operations and cash flows. We may also be unable to identify hotel properties in such jurisdictions in a timely manner, and so we could lose our brand value and customer loyalty in that jurisdiction.

Further, any regulatory non-compliance by the lessors/licensors or adverse development relating to the landlords' title or ownership rights to such properties may entail significant disruptions to our operations, especially if we are forced to vacate leased spaces following any such developments, and expose us to reputation risks. While we have not faced any instances of regulatory non-compliance by the lessors/licensors or adverse development relating to the lessors/licensors' title or ownership rights in the stub period ended September 30, 2024 and Fiscals 2024, 2023, and 2022, there is no assurance that such events will not occur in the future. Any adverse impact on the title, ownership rights, rights of the owners/landlords from whose premises we operate or breach of the contractual terms of any lease and license agreements may adversely affect our business, results of operations, financial condition and cash flows.

While none of our lease deeds or leave and license agreements were terminated prior to its tenure in the stub period ended September 30, 2024 and Fiscals 2024, 2023, and 2022, in the event any of our lease deeds or license agreement is terminated prior to its tenure, or if we are unable to secure renewal of the agreements on favorable terms or at all or if we are required to re-negotiate and agree to higher rates for such lease or license, or if we are required to cease business operations at a hotel property and for any reason whatsoever or the land is leased or sold to our competitor after the termination of our lease, our business, financial condition, cash flows and results of operations may be adversely affected. For more information on our hotel properties, refer section titled "*Our Business – Land and Property-Operational Leasehold Properties*" on page 160 of this Prospectus.

3. Some of our agreements may be under stamped or inadequately stamped or unregistered and if any financial or judicial implication arises out of the same it may have an adverse effect on the Company's business and reputation.

Some of our lease/license agreements and Memorandum of Understandings with clients, joint venture partners etc. may have certain irregularities such as inadequate stamping, incorrect registered office address and / or non-registration of deeds and agreements and improper execution of deeds. An inadequately stamped document and non-registration of documents affects their inadmissibility as evidence before any judicial forum and we, as parties to that agreement, may not be able to legally enforce the same, unless the defects are rectified and after paying a penalty for inadequate stamping, non-registration, etc.

We have not faced any instances where unregistered and inadequately stamped lease agreements or other agreements entered into by us faced challenges in enforcement or admitting the same as evidence in a court in India, which has then caused disruptions in our operations or result in our inability to continue to operate from the relevant locations during the past six months period ended September 30, 2024 and the Fiscals 2024, 2023, and 2022. However, in the event of any dispute arising out of such unstamped, or inadequately stamped and/or unregistered agreements, we may not be able to effectively enforce our rights arising out of such agreements which could materially and adversely affect our business, financial condition, results of operations and prospects.

4. A majority of our properties are operating under Sarovar Brands /Royal Orchid Brands pursuant to the franchise/ trademark license agreements with the Sarovar/Royal Orchid, and we are subject to risks, including non-renewal, termination and disputes, associated with such contracts

Our Company have entered into 11 (eleven) franchise/ trademark license agreements with Sarovar/Royal Orchid to operate ten of our key properties located in Karnataka (Bengaluru), Goa (Anjuna), Tamil Nadu (Hosur) and Telangana (Secunderabad), under the Sarovar Brands /Royal Orchid Brands. Our Company has also entered into 1 (one) franchise cum trademark license agreement with the Sarovar to operate one of our key property located in Karnataka, under the Golden Tulip/Tulip Inn brand. Our JV Partner Entities have also entered into 2 (two) franchise/ trademark license agreements with Sarovar/Royal Orchid to operate its key properties located in Tirupati (Andhra Pradesh) and Bengaluru (Karnataka), under the Sarovar Brand/Royal Orchid Brand respectively. For more details, refer section titled "*History And Certain Other Corporate Matters – Other agreements*" on page 194 of this Prospectus. The franchise/ trademark license agreements allow us to facilitate/supplement our sales and marketing efforts and generate leads for these hotel properties. Similarly, the franchise/license agreement also creates a continuing obligation on the Company to maintain certain protocols and standards with reference to use of brand name, displays, reservations system know how, marketing and promotional materials etc in connection with the operation of such properties. The franchisor/licensor also conducts training and workshops programs for our hotel staff. Any breach of the terms and conditions set out in these franchise/ license agreements could result in liquidation damages or termination compensation and may adversely affect our rights over such brands resulting in us failing to secure renewal of these arrangements.

While none of our franchise/trademark license agreements were terminated prior to termination date and we have not had any disputes with our franchisee partners in the stub period ended September 30, 2024 and Fiscals 2024, 2023, and 2022, should there be a dispute regarding our compliance with the SOP's mandated by the franchisee partners, or should these licenses be terminated or not renewed, we will not be able to continue using the Sarovar Brand /Royal Orchid Brand names at our properties, or have access to the reservations system of such brands which could have a material adverse impact on our ability to attract customers and impact our business and financial results.

5. Our franchise/ trademark license agreements with the Sarovar/Royal Orchid are non-exclusive

Since our franchise/ trademark license agreements with the Sarovar/Royal Orchid are non-exclusive, we may face the risk of competing hotels operating under the same brand as our hotels in the cities - Tirupati (Andhra Pradesh), Bengaluru (Karnataka), Anjuna (Goa), Hosur (Tamil Nadu), and Secunderabad (Telangana). If such hotels were to start operating in cities where we have hotels under the same franchise/trademark license arrangement, it would undermine our brand differentiation which would have a material adverse effect on our business and financial results.

6. As on September 30, 2024, a significant portion of our hotel keys and revenue from operations is derived from hotels properties concentrated in the city of Bengaluru (Karnataka) and Tirupati (Andhra Pradesh) out of the portfolio of 16 operational hotel properties, and any adverse developments affecting these hotels or the regions in which they operate, could have an adverse effect on our business, results of operation, cash flows and financial condition.

A significant portion of our hotel keys and revenue from operations during the stub period ended September 30, 2024 and last three Fiscals is derived from hotels properties located in the city of Bengaluru (Karnataka) and Tirupati (Andhra Pradesh) out of the portfolio of 16 operational hotel properties, details of which are as follows:

Particulars	For the stub period ended September 30, 2024	Fiscal 2024	Fiscal 2023	Fiscal 2022

% Keys in Bengaluru to Total Keys	60.82%	59.13%	73.25%	100%
Keys from properties in Tirupati	88	88	88	-
% Keys in Tirupati to Total Keys	11.69%	16.57%	26.74%	-

The hotel property located in the city of Tirupati is separate property operated by JV Partner Entity and operating under Golden Tulip Brand. For further information on operating information pertaining to the above-mentioned hotels, refer section titled “Our Business – Our Operational Hotel Properties” on page 160 of this Prospectus.

Any decrease in our revenues from these hotels, including due to increased competition and supply or reduction in demand in the regions in which these hotels operate, may have an adverse effect on our business, results of operation, cash flows, and financial condition.

We have not experienced any significant disruptions or shutdown of the hotels in the stub period ended September 30, 2024 and last three Fiscals, including due to social, political or economic factors or natural calamities or civil disruptions, which may have impacted these hotels or regions. However, any such occurrences in the future may adversely affect our business, results of operation, cash flows and financial condition. For details of the impact faced by our Company due to the COVID-19 pandemic, refer section titled “*Risk Factors – The COVID-19 pandemic affected our business and operations and any future pandemic or widespread public health emergency in the future, could affect our business, financial condition, cash flows and results of operations*” on page 37 of this Prospectus. In addition, changes in the policies of the state or local governments of the regions where these hotels are situated, including any increase in property tax or imposition of COVID-19 related restrictions, may require us to incur significant capital expenditure and change our business strategy. We cannot assure you that we will be able to reduce our reliance on these hotels in the future.

7. We are subject to extensive government regulation with respect to safety, health, environment, real estate, food, excise, property tax and labor laws. Any non-compliance with or changes in regulations applicable to us or failure to obtain, maintain or renew our statutory and regulatory licenses, permits and approvals required to operate our business may adversely affect our business, results of operations, cash flows and financial condition

We are subject to extensive government regulation with respect to safety, health, environmental, real estate, food, excise, property tax and labor laws at a central and state level. These licenses differ on the basis of the location as well as the nature of operations carried out at such locations. We provide hospitality services, including sale of food and beverage including wine and liquor, cleaning and housekeeping, at our hotels. In rendering such services, we are subject to a broad range of safety, environmental, food, real estate, taxation, excise, labor, property tax and related laws and regulations. We are also subject to internal standard operating procedures under our hotel management agreements which impose controls on our operations. While the day-to-day operations at our hotels are managed by Our Company, we are responsible for obtaining and maintaining all government and regulatory approvals required in relation to the operations and services provided at each of our hotels. For details of the key regulations applicable to us and the key approvals and licenses we are required to maintain, refer section titled “*Key Regulations and Policies*” and “*Government and Other Approvals*” beginning on pages 186 and 302, respectively of this Prospectus. However, the Company is yet to obtain certain license or approval or consent required for the operations of the hotels in India or has obtained certain license or approvals in the name of the landlords/original licensor. For instance, under the municipal laws and local laws of the hotels, we might be subject to obtaining No Objection Certificate from the local fire department, which we have not obtained. Though no incidents have occurred, we cannot promise no incidents will occur in future. At each Hotel, Company has strived to comply with fire safety norms by way of installation of necessary fire safety equipment. Further, any regulatory actions for such pending approvals or non-compliances could entail significant disruptions to our operations, fines/penalties, especially if we may be forced to vacate leased spaces following any such actions, and expose us to reputation risks. While we have not faced any instances of regulatory non-compliance, there is no assurance that such events will not occur in the future. Any regulatory actions in respect of the premises/hotels we operate may adversely affect our business, results of operations, financial condition and cash flows.

Further, regulations and policies in India may also impact the demand for, expenses related to and availability of our hotel services and rooms, and food and beverage operations. We are also subject to regulations, which are periodically amended, including relating to the sale, storage and service of food, alcoholic and non-alcoholic beverages and hosting of events at our hotels. As a result of non-compliance with, or changes in, the applicable laws, such as changes in excise policy, property tax and building regulations, we may incur increased costs, be subject to penalties, have our approvals and permits revoked, be subject to enforced shutdowns or suffer a disruption in our operations or have other sanctions imposed on us by the regulatory authorities.

While we obtain a number of necessary approvals for our operations, certain of such approvals are subject to renewal in the ordinary course of business or may require updation.

For details on material approvals of our Company, including applications filed for renewal or modification of such approvals, refer section titled “*Government and Other Approvals – Material licenses/ approvals for which the Company is yet to apply*” and “*Licenses for which application is made*” on page 302 of this Prospectus.

We may also need to apply for additional approvals, including renewal or modification of existing approvals in the ordinary course of business. Our hotels and related facilities (such as banquet halls) continue to be operated while the relevant licenses may be in the process of renewal. Any delay in the issuance of such licenses or approvals, especially licenses which are required to be renewed for an operating hotel, may adversely impact the revenue of such hotel. We cannot assure you that such approvals will be issued or granted to us in a timely manner, or at all.

Further, the approvals required by us are subject to numerous eligibility conditions and ongoing compliance. In the event of any non-compliance or alleged non-compliance with the terms and conditions thereof may result in such approval being suspended or revoked. Further, if the laws governing our business are amended, we may need to obtain additional approvals, incur increased costs, have our approvals and permits revoked or suffer a disruption in our operations, which could adversely affect our business.

8. Negative customer experiences or negative publicity surrounding our hotel properties could have an impact on ability to source customers. Thus, we may also incur higher expenses towards business promotion in the future, to source more customers which may have an adverse impact on our business and financial condition.

Many online intermediaries allow customers to rate and review our hotels. Our hotel properties currently have average customer rating of 4 on the website of intermediaries for hotel bookings. Negative customer experiences may have an impact on our ability to source customers. Any adverse publicity, whether or not accurate, relating to hospitality standards, quality of food or beverages we serve, public health concerns, illness, safety, injury or any news reports or government or industry findings concerning our hotel properties, the locations in which we operate or others operating across the hospitality industry supply chain could affect us. Further, while we have not faced any instances of incorrect information being uploaded about our hotels by such intermediaries in the stub period ended September 30, 2024 and Fiscals 2024, 2023, and 2022, any failure or delay on our part in scrutinizing and rectifying any incorrect details of our hotels posted on travel portals in the future may adversely affect the reputation of our hotels and cause negative publicity

Further, Sarovar/Royal Orchid-branded hotels are operated globally, and any negative publicity in relation to the Sarovar/Royal Orchid brands in any of the jurisdictions where they operate, could adversely affect our business, reputation and financial condition. While we have not faced any negative publicity in relation to our hotel properties in the stub period ended September 30, 2024 and Fiscals 2024, 2023, and 2022, which led to a material adverse effect on our business or operations, any negative publicity in the future may lead to an effect on our business, financial condition, results of operations, cash flows and prospects.

If we face any instances of adverse publicity, whether or not accurate, relating to hospitality standards, quality of food or beverages we serve, public health concerns, illness, safety, injury or any news reports or government or industry findings concerning our hotel properties, the locations in which we operate or others operating across the hospitality industry supply chain, we may be required to incur additional expenses towards advertising and promotional activities to attract customers. Further, we intend to develop and expanding our hospitality assets and accordingly, we may need to make greater investments toward advertising and promotional activity in new markets where we establish our hotels. For further details in relation to our strategies on developing and expanding our hospitality assets, refer to section “*Our Business – Our Strategies*” on page 160 of this Prospectus.

9. Certain of our Joint Ventures, Group Company and Promoter Group entities incorporated in India or outside India have common pursuits as they are engaged in similar business or industry segments and may compete with us

Our Joint Ventures, Group Company and Promoter Group entities incorporated in India and outside India, are engaged in businesses which are similar to that of our Company. Therefore, there may be conflict of interest in allocating business opportunities between us, such Joint Ventures, Group Companies and Promoter Group entities.

The Company vide its letters dated June 19, 2024 and July 18, 2024, have permitted Mr. Ramesh Siva and Mrs Vidya Ramesh to use the words “Grand Continent” in the name of Grand Continent – FZCO, Grand Continent Hotels Limited (England and Wales) and Grand Continent Hotel Management LLC, respectively. Pursuant to above letters, Grand Continent – FZCO, Grand Continent Hotels Limited (England and Wales) and Grand Continent Hotel Management LLC have been restricted to operate outside their respective jurisdictions viz., UAE and London, United Kingdom. The Company can operate in the said jurisdictions without any restrictions.

We cannot assure you that there will not be any conflict of interest between our Company, Joint Ventures, Group Companies and Promoter Group entities in the future. We have not entered into any non-compete agreements with such Joint Ventures, Group Companies and Promoter Group entities and there can be no assurance that such entities will not compete with our existing business or any future business that we might undertake or that we will be able to suitably resolve such a conflict without an adverse effect on our business and financial performance. For further details, please refer section titled, “*History and Certain Corporate Matters – Joint Ventures of our Company*” and “*Group Companies*”, “*Our Promoters and Promoter Group*” at pages 194, 228 and 224, respectively of this Prospectus.

10. Changes in travellers’ preferences due to cost of travel, spending habits, competition from alternative accommodation, and other factors may adversely affect the demand for hotel rooms, thereby adversely impacting our business, results of operations, financial condition, and cash flows.

Changes in business spending and preferences of our international business, leisure customers and domestic tourism and preferences of our guests due to evolving cost of travel, spending habits and consumption patterns may lead to a change in the perceived attractiveness of our hotels, services, the locations at which our hotels are situated. Such changes may impact the demand for our hotel rooms from domestic tourists and guests at our leisure hotels, and our business may be adversely affected. We derive a significant portion of our revenue from large corporate key accounts.

Consequently, any reduction in growth or a slow-down in the business of such large corporate customers or an increase in trend of virtual meetings and conferences, could result in a reduction of their requirement for our services. Similarly, changes in business spending and preferences of our business and corporate customers due to evolving cost of travel, spending habits and budgeting patterns may lead to a change in the perceived attractiveness of our hotels and services.

The diversified offerings from hospitality industry in terms of alternative accommodation option like homestays, villas, hostels, short-term rentals are playing an important role in meeting the evolving demands of travellers. These alternatives often offer unique experiences and competitive pricing, attracting a segment of travellers seeking more personalized or cost-effective options, posing a significant threat to mid-scale hotels. (Source: Ken Research)

The loss of such customers or a reduction in their demand for our services could adversely affect our business, results of operations, financial condition, and cash flows. Currently, a majority of our hotels are located at important business and financial hubs of India, however in the future such business hubs may shift, within a city or interstate, and as a result our hotel locations may not be as attractive to business travellers and corporate customers, resulting in reduction of demand for our services which may have an adverse effect on our business, results of operations, financial condition, and cash flows.

11. Our business prospects and continued growth depends on our ability to access financing at competitive rates and competitive terms, which amongst other factors is dependent on our credit rating. Absence of our credit ratings may restrict our access to capital and thereby adversely affect our business, cash flows and results of operations.

Our business depends on our ability to obtain funds at competitive rates. The cost and availability of capital, among other factors, is also dependent on our current and future results of operations, cash flows and financial condition, our ability to effectively manage risks, our brand and our credit ratings. We may not be able to avail the requisite amount of financing or obtain financing at competitive interest rates if we fail to obtain credit rating for our credit facilities.

While our Company has not obtained any credit ratings during the stub period ended September 30, 2024 and Fiscals 2024, 2023 and 2022, this could increase the possibility of additional terms and conditions being added to any new or replacement financing arrangements and can lead to high borrowing costs and limit our access to capital and lending markets and, as a result, could adversely affect our business. For more information, refer section titled “*Financial Indebtedness*” on page 287 of this Prospectus.

12. Our business is capital intensive and may require additional financing to meet those requirements, which could have an adverse effect on our results of operations, cash flows and financial condition.

Our business is capital intensive as we require capital including working capital to operate and expand our hotel properties and operations. One of the objects of the Offer is to expand our hotel footprint for which we have identified five properties across India for which an amount of ₹ 1,679.24 lakhs is being demarcated from the Net Proceeds of the Fresh Issue. This translates to an approx. average spend of ₹335 lakhs per property. This amount covers the expenditure to be incurred in getting the property ready for onboarding and welcoming guest. This spend broadly includes interiors and furnishing, equipment including kitchen equipment, equipment for getting facilities/ banquet halls and other utility areas operational. For further information, refer section titled “*Objects of the Offer – Details of the Objects of the Offer – Expansion of our Hotel properties in India.*” on page 113 of this Prospectus. As we intend to grow our business by expanding keys in new hotel properties, our growing scale of operation and planned expansion may result in increase in the quantum of working capital required. Our inability to maintain sufficient cash flows, credit facility and other sourcing of finance for the same, could adversely affect our results of operations, financial conditions and cash flows.

Simultaneously, it is worth noting that new mid-scale properties typically take 12 to 18 months to achieve stable occupancy levels (60-70%), depending on factors such as the property's location in a high-demand tourist or business hub, brand affiliation, seasonality, market conditions, and the effectiveness of its marketing, distribution strategy, and guest experience. In cases where the location is favorable and guest experience is positive, this period can shorten to 6-12 months (Source: Ken Research). Longer lead times to get optimal occupancy level could lead to additional financing arrangements to cover working capital cost. Further, there is no assurance that these expenditures and enhancements will result in increased revenues or profits in the near future or at all.

The actual amount and timing of our future capital requirements may differ from estimates as a result of, among other factors, unforeseen delays or cost overruns, unanticipated expenses, regulatory changes, delay in obtaining regulatory approvals, economic conditions, design changes, weather related delays, technological changes and additional market developments. Any time or cost overruns in relation to our ongoing and future expansion may have a material adverse effect on our business, results of operations, reputation, cash flows and financial condition.

13. Our inability to protect or use our intellectual property rights may adversely affect our business.

We rely on our intellectual property rights for the success of our business and in order to protect our intellectual property, we obtain appropriate statutory registrations. We hold one registered Trademark and one trademark for which application is made under the Trademarks Act. For further details in relation to our intellectual property approvals, refer section titled “*Our Business – Intellectual Property*” on page 160, respectively of this Prospectus. In addition, we have entered into trademarks license agreements with Sarovar or Royal Orchid pursuant to which we have been granted certain non-exclusive, non-transferable, revocable, limited licenses for usage of trademarks for the duration of the relevant agreements.

Our failure to renew or protect our intellectual property rights may undermine our brand and hinder the growth of our business. If any of our confidential or proprietary information were to be disclosed or misappropriated, or if a competitor independently developed any such information, our competitive position could be harmed. In addition, our current and future trademarks are subject to expiration and we cannot guarantee that we will be able to renew all of them prior to expiration. Our inability to renew registration of certain trademarks, loss of such trademarks and/or expiry or termination of the trademarks license agreements with Sarovar or Royal Orchid, could have an adverse effect on our business, results of operations, financial condition and cash flows.

Successful infringement claims against us could result in significant monetary liability. Our defense of any such claim, regardless of its merit, could also be time consuming and divert management resources. In addition, resolution of claims may require us to cease using those rights altogether. In addition, there is no assurance that steps taken by us to protect our intellectual property rights will be adequate to stop infringement by others, including imitation and misappropriation of our brand. Furthermore, we cannot be certain that the equipment suppliers, from whom we purchase equipment (including related software to operate such equipment), have all requisite third-party consents and licenses for the intellectual property used in the equipment they manufacture. As a result, we may be exposed to risks associated with intellectual property infringement and misappropriation claims by third parties. While we have not faced any infringement or misappropriation claims in the stub period ended September 30, 2024 and Fiscals 2024, 2023 and 2022, any such occurrence in the future could have an adverse effect on our business, reputation, financial condition, cash flows and results of operations.

14. There are certain discrepancies/errors noticed in some of our corporate records relating to forms filed with the Registrar of Companies and other provisions of Companies Act, 2013.

Our company has missed on compliance with certain statutory provisions in the past including but not limited to the details as mentioned in this risk factor. Although, our Company endeavours to comply with all compliance/ reporting requirements, there may have been instances of delays/non-disclosures/erroneous disclosures and non-filings of certain forms which were required to be filed as per the reporting requirements under the Companies Act, 1956 and Companies Act, 2013 with RoC. 16. Our Company have availed unsecured borrowings, certain of which may be recalled by the lender at any time, which may have an adverse impact on our cash flows, business and financial condition.

Our Company has been availing unsecured loans from time to time. The total outstanding unsecured loan as on February 28, 2025 is amounting to ₹ 100 Lakhs. As per the terms of the said unsecured loan, it is repayable at the end of six months from the date of availing the said loan which may be mutually extended to a period of twelve months. Although

17. India's mid-scale hotel market is highly competitive and our inability to compete effectively may adversely affect our business, results of operations, cash flows and financial condition.

According to the KEN Research, India's mid-scale hotel market is highly competitive, with 40-45 hotel chains operating across the country. Within this broad landscape, 20-25 domestic chains stand out by maintaining a strong presence in both metros and expanding into Tier II & III cities. These chains are leveraging geographic diversification to tap into high-growth regions beyond the major urban centers. A more focused segment of 12-15 chains targets budget-conscious travelers, offering rooms with below-industry-average ADR (Average Daily Rate). These hotels prioritize affordability, catering to the needs of cost-sensitive travelers looking for value-driven services. This rapid expansion, unmatched by competitors, highlights its aggressive strategy to capture increasing demand in both metro and non-metro areas (Source: KEN Research). We compete with large multinational and Indian hotel companies, in each of the regions/locations in which we operate. Competitive factors at each hotel destination include room rates, quality of accommodation, name recognition, service levels and convenience of location, and to a lesser extent, the quality and scope of other amenities and services. Some of our competitors who are hotel owners may operate on a larger scale than us in such destinations or otherwise, or develop alliances to compete against us, or have greater financial and other resources. We cannot assure you that hotels owned or managed by new or existing competitors will not lower rates or offer a wider variety of services or amenities or significantly expand or improve facilities in a market or location in which we operate, or that we will be able to compete effectively in such conditions. While we have not faced any material adverse impact of the opening of a new hotel in the vicinity of any one of our hotels in the stub period ended September 30, 2024 and Fiscals 2024, 2023, and 2022, such occurrences may increase competition which would impact our occupancy levels and consequently our revenues. We may also face increased competition from budget hotels, internet-based homestays and hostel aggregators and alternative accommodation options such as luxury homestays and bed and breakfast.

Our success is largely dependent upon our ability to compete in areas such as room rates, location of the property, quality of accommodation, service levels and the quality and scope of other amenities, including among others, food and beverage facilities. In addition, our competitors may significantly increase their advertising budget and offer more discounts or incentives to promote their hotels, which may require us to increase advertising and marketing expenses and change pricing and promotional strategies. While we have not experienced any material instances of such increased advertising and marketing expenses and changes in pricing strategies in the stub period ended September 30, 2024 and Fiscals 2024, 2023, and 2022, such occurrences in the future may have an adverse effect on our results of operations and cash flows. As a result, we cannot assure you that we will be able to compete successfully in the future against our existing or potential competitors, or that our business, cash flows and results of operations will not be adversely affected by increased competition.

18. The COVID-19 pandemic affected our business and operations and any future pandemic or widespread public health emergency in the future, could affect our business, financial condition, cash flows and results of operations.

The hospitality industry in India has been severely affected by the global outbreak of the COVID-19 pandemic since early 2020 due to reduced traveller traffic and government-mandated restrictions on movement. On March 14, 2020, the Government of India declared COVID-19 as a “notified disaster” for the purposes of the Disaster Management Act, 2005 and imposed a nationwide lockdown beginning on March 25, 2020. The global impact of the COVID-19 pandemic rapidly evolved and public health officials and government authorities responded by taking measures, including in India where our hotels are based, such as prohibiting people from assembling in large numbers, instituting quarantines, restricting domestic and overseas travel, issuing “stay-at-home” orders and restricting the types of businesses that may

continue to operate, among many others. In response to new strains and subsequent waves of COVID-19 pandemic, the Government of India and state governments periodically re-imposed lockdowns, with limited and progressive relaxations.

The COVID-19 pandemic adversely affected our financial and operating performance and certain aspects of our business operations in the following ways, among others:

- domestic and overseas travel restrictions, including airport closures, may result in lower demand for rooms at our hotels and adversely affect our Average Occupancy and ARRs;
- increased cost of operations of our hotels to ensure higher standards of disinfection and cleanliness as well as disinfection costs;
- reduced revenue from our food and beverage operations due to changing consumer behavior towards dining out and greater usage of food delivery services;
- employees that are suspected of being infected with the COVID-19 pandemic as well as other employees that have been in contact with those employees may be required to be quarantined, and our employees may be restricted by travel and other lockdown measures imposed in India and overseas; this could result in a temporary reduction in the numbers of personnel or delays and suspension of operations as a health measure, which could have an adverse effect on our business and operations; and
- increased risks emanating from process changes being implemented, such as technology, oversight and productivity challenges due to an increase in number of individuals working from home.

Any intensification of the COVID-19 pandemic or any future outbreak of another highly infectious or contagious disease may adversely affect our business, financial condition, cash flows and results of operation

19. Our inability to manage our growth may disrupt our business and reduce our profitability.

From Fiscal 2022 to Fiscal 2024, our total revenue from operations has grown at a CAGR of 127.66%, our hotel keys have grown at a CAGR of 66.30%. As part of our growth strategy to meet customer needs, we are committed to diversify our product offerings expand our geographic footprint, improve operational efficiencies of our hotel portfolio's and optimise capital allocations through an asset light business model. This will in turn result in substantial demands on our management, operational, and financial resources and our growth will require us to continuously invest in our operations and improve our operational, financial and internal controls, employee costs, and administrative infrastructure. An inability to manage our growth, may disrupt our business and reduce our profitability.

20. Our Promoters, Mr. Ramesh Siva and Mrs. Vidya Ramesh have been disqualified to act as directors in the past by the RoC.

Our Promoters and Directors, namely Ramesh Siva and Vidya Ramesh were disqualified from directorship from January 11, 2016 to October 31, 2021 by Registrar of Companies, Chennai in relation to their directorship in the Company which did not file financial statements or annual returns for continuous period of three (3) financial years. However, consequently upon the Company's compliance with all requisite annual filings of accounts and annual returns under the E-CODS scheme introduced by the MCA, disqualification from directorship for our Promoters has also ended on October 31, 2021. Currently, their DIN is valid and active as seen on the MCA portal.

While Ramesh Siva and Vidya Ramesh are not presently disqualified to be directors, there is no assurance that statutory or regulatory actions or legal proceeding will not be initiated against any of them for any such future non-compliance. In future, in case of any actual or alleged non-compliance with regulatory requirements, our Promoters namely, Ramesh Siva and Vidya Ramesh could be subject to administrative or judicial proceedings that may result in substantial penalties and/ or diversion of management's attention which could negatively affect our reputation and may have a material adverse effect on our business operations.

21. Some of our Directors were director of companies which has been struck off from the register of companies maintained by the RoC.

Some of our Directors were director of the following companies which have been struck off from the register of companies maintained by the relevant RoC pursuant to Section 248(1) of the Companies Act, 2013:

----	--------------------------------	----------------------------------	---------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-----------------------------------

In the event of any action being taken against these companies or the directors of these companies, our Director(s) may be held liable under the relevant provisions of the applicable law. Although, no notice has been received by our Director(s) for the above, but there cannot be any assurance that the regulatory authority will not take any penal action against those companies or our Director. In case any such action is taken it may have an adverse effect on our Director and may affect the reputation of our Company.

22. We may be unable to successfully grow our business in new geographies in India, which may adversely affect our business prospects, results of operations, financial condition and cash flows.

We intend to expand our hotel portfolio to new geographies across India, with a focus on geographies which have potential to attract significant traffic from business and leisure travellers including tourist destinations which will cater to the domestic leisure traveller. For more details, refer section titled “*Our Business – Our Growth Strategies*” on page 160 of this Prospectus. However, there is no assurance that we will be able to grow our business in these geographies, which may adversely affect our business prospects, results of operations, financial condition and cash flows. Inability to access infrastructure, certain logistical challenges in these regions and our relative inexperience with certain new markets, may prevent us from expanding our presence in these regions. We may also be unable to compete effectively with the services of our competitors who are already established in such regions. Our expansion plans may also result in increased advertising and marketing expenditure and challenges caused by distance, language and cultural differences.

23. Any failure to maintain the quality and hygiene standards of the food and beverages that we offer, will adversely affect our F&B Revenue, overall business and financial performance.

Our operations depend on the quality of food and beverages served at our hotels and we focus on hygiene to ensure safety of our customers. Our hotels feature Food and Beverages (F&B) services, including several establishments that attract customers and guests staying at our hotels. Set out below are details of our F&B Revenue for the periods/years indicated:

Further, we maintain an inventory of dry groceries, which are subject to expiry and may also be subject to contamination or deterioration. We have not had any complaints with our F&B offering for the stub period ended September 30, 2024 and Fiscal 2024, 2023 and 2022. We cannot assure you that we will not be involved in any other litigation or proceedings, or be held liable in any litigation or proceedings in relation to the services provided by us. In addition, we may be subject to false claims of contamination which could create negative publicity and adversely affect our reputation, business, financial condition, results of operations, cash flows and Prospects.

24. We have a large workforce deployed across our hotels and may be exposed to service-related claims and losses or employee disruptions and work stoppages that could have an adverse effect on our business and reputation. Our Company has also witnessed delays in payment of statutory dues linked to our employees in the past.

We have a large workforce deployed across our hotels, for details relating to human resource, kindly refer section titled “*Our Business – Human Resource*” on page 160 of this Prospectus. The risks associated with the utilization of a large workforce include possible claims relating to:

- actions, inactions, errors or malicious acts by our personnel, including matters for which we may have to indemnify our guests;
- failure of our personnel to adequately perform their duties, including for rendering deficient services;
- violation by our personnel of security, privacy, health and safety regulations and procedures;

- any failure by us to adequately verify personnel backgrounds and qualifications;
- injury or damages to any guest's person or property due to negligence of our personnel; and

These claims may give rise to litigation and claims for damages, which could be costly and time consuming. Such labour claims may result in negative publicity and adversely impact our reputation. In addition, we may also be affected by the acts of third parties, including subcontractors and service providers. While we have not faced any such instances of labour claims which led to a material adverse effect on our business, operations or reputation in the stub period ended September 30, 2024 and Fiscals 2024, 2023, and 2022, any such instances in the future or any losses that we incur in this regard may have an adverse effect on our business and reputation.

We are also subject to certain outstanding litigation alleging default in payment towards statutory dues. For further details, refer section titled "Outstanding Litigation and Material Developments – I. Litigation involving our Company – A. Litigation against our Company" on page 298 of this Prospectus. There can be no assurance that these legal proceedings will be settled in our favor. Further, any further default/ delay that may arise in the future could lead to financial penalties from the relevant government authorities which in turn may have a material adverse impact on our business, financial condition and cash flows.

26. Our operations are dependent on our ability to attract and retain qualified personnel which are in high demand in India, and any inability to retain qualified personnel could adversely affect our business, results of operations, cash flows and financial condition.

Our operations are dependent on our ability to attract and retain qualified personnel with relevant experience in the hospitality industry.

According to the Ken Research, most branded hotels in India today are severely underpowered. The current shortfall in the branded hotels space is 80,000-100,000 people. These hotels require 1.2-1.5 million people every year and this requirement is growing at a CAGR of 5.5-5.6%. This shortage hampers operational efficiency, impacts service quality, and constrains growth potential, posing a critical challenge for maintaining competitive standards and meeting increasing market demands.

While we believe that we currently have adequate qualified personnel for our operations, we may not be able to continuously attract or retain such personnel, or retain them on acceptable terms, given the demand for such personnel. Competition for qualified personnel with relevant industry expertise in India is intense and the loss of the services of our key personnel may adversely affect our business, results of operations, cash flows and financial condition. We may require a long period of time to hire and train replacement personnel when qualified personnel terminate their employment with our Company. We may also be required to increase our levels of employee compensation more rapidly than in the past to remain competitive in attracting employees that our business requires. Set out below are details of our employee benefit expenses for the periods/years indicated.

Particulars	Fiscal			
	For the stub period ended September 30, 2024	2024	2023	2022

27. Existing or planned amenities and transportation infrastructure at or near our other hotels could be closed, relocated, terminated, delayed or not completed at all. Disruptions of basic infrastructure such as electricity and water supply could adversely affect our operations

We require a continuous supply of basic amenities such as electricity and water, and any disruption in the supply thereof could affect the operations of our hotels and the services to our guests. We currently source our water requirements from governmental water supply undertakings and water tankers and depend on state electricity boards and private suppliers for our energy requirements. Further, we rely on air-conditioning systems to maintain cooling standards, operations and services to our guests and any interruption in the functioning of such air conditioning systems could cause serious reputation and operational risks at our hotels. Although we have diesel generators and back-up generators to meet exigencies at all of our hotels, we cannot assure you that our hotels will have sufficient back-up during power failures. While we have not faced any such disruption which led to a material adverse effect on our business and operations in the stub period ended September 30, 2024 and Fiscals 2024, 2023, and 2022, any disruption in the future could adversely affect our business operations. Further, any failure on our part to obtain alternate sources of electricity or water, or address mechanical, electrical and plumbing failure, in a timely manner, and at an acceptable cost in the future, may have an adverse effect on our business, cash flows, results of operations and financial condition.

The location of our hotels and their accessibility through transport services and related infrastructure are of significant relevance to us. We cannot assure you that the transportation infrastructure and services near, or anticipated to be near, our hotels will not be closed, relocated, terminated, delayed or remain incomplete. While we have not faced such instances in the stub period ended September 30, 2024 and Fiscals 2024, 2023, and 2022, if the accessibility of any of our hotels is adversely affected in the future, it could negatively affect their attractiveness and marketability which may, in turn, may impact our business, cash flows, results of operations and financial condition.

28. We are exposed to a variety of risks associated with safety, security and crisis management including risks associated with natural or man-made threats and accidents, which could cause an adverse impact on our business and operations.

We are committed to ensuring the safety and security of our guests, customers, employees, and assets against natural and man-made threats. These include, but are not limited to, exceptional events such as extreme weather, civil or political unrest, violence and terrorism, serious and organized crime, fraud, employee dishonesty, cybercrime, pandemics, fire and day-to-day accidents, health crises of guests, sexual harassment at the workplace and petty crimes which could affect guest or customer or employee experience, cause loss of life, sickness or injury and result in compensation claims, fines from governmental authorities, litigation and impact our reputation. Serious incidents or a combination of events could escalate into a crisis which, if managed poorly, could further expose us to significant reputational damage. For details in relation to the impact of the COVID-19 pandemic on our business, refer section titled “*Risk Factors – The COVID-19 pandemic affected our business and operations and, or any future pandemic or widespread public health emergency in the future, could affect our business, financial condition, cash flows and results of operations*” on page 37 of this Prospectus. In the event that we face a similar incident in the future, our operations may be disrupted in a similar manner, which may result in major loss of revenues. Such incidents, whether natural or man-made, could disrupt business operations and have a material adverse effect on our business, cash flows and financial condition.

Further, any accidents or any criminal activity at our hotels may result in personal injury or loss of life, substantial damage to or destruction of property and equipment resulting in the suspension of operations. Any of the foregoing could also subject us to litigation, which may increase our expenses in the event we are found liable and adversely impact our results of operation, cash flows and financial condition. While we have not faced any such events that led to a material effect on our business or shutdown of our operations in the stub period ended September 30, 2024 and Fiscals 2024, 2023, and 2022, any such events in the future could affect our reputation and cause a loss of consumer confidence in our business

29. We depend on the skills and experience of our Promoters, Key Managerial Personnel, Senior Management and employees with technical expertise, and any inability to retain our Key Managerial Personnel and Senior Management could adversely affect our business, results of operations, cash flows and financial condition.

We benefit from the strategic guidance of our Promoters, Mr. Ramesh Siva, who is also our Chairman and Managing Director and Mrs. Vidya Ramesh, who is also our Whole Time Director. For further information, refer section titled “*Our Management – Biographies of Directors*” on page 203 of this Prospectus. If his/her involvement in our business reduces in the future, we may be unable to implement our plans as anticipated or maintain administrative control as we currently do, which in turn could adversely affect our business, results of operations, cash flows, financial condition and prospects. As our Promoters are presently engaged in entities that are engaged in businesses similar to ours, any increased focus on such other entities may divert his/her attention from our business. For further information, refer section titled “*Our Promoters and Promoter Group – Interests of our Promoters*” on page 224 of this Prospectus. They are further supported by an experienced management team with demonstrated execution capabilities.

Our performance is dependent on the efforts and abilities of our Key Managerial Personnel and Senior Management, including, Mr. Mithun Jayaraman, Chief Financial Officer, Ms. Aastha Kochar, Company Secretary, Mr. Sunil Kumar Mathur, Chief Operating Officer, among others. For further information, refer section titled “*Our Management – Key Managerial Personnel and Senior Management*” on page 203 of this Prospectus. We believe that the inputs and experience of our Key Managerial Personnel and Senior Management are valuable for the development of our business and operations and the strategic directions taken by our Company.

Any inability on our part to retain our Key Managerial Personnel and Senior Management could adversely affect our business, results of operations, cash flows and financial condition

30. The success of our business is dependent on our ability to anticipate and respond to customer requirements. Our business may be affected if we are unable to identify and understand contemporary and evolving customer preferences or if we are unable to deliver quality service as compared to our competitors.

We are engaged in the hospitality industry and are driven by the quality of service we provide and the expectations of our customers. The hospitality industry is affected by changes in consumer preferences, national, regional and local economic conditions and demographic trends. We need to evolve the services offered by us in order to compete with popular new hospitality services, operation formats, concepts or trends that emerge from time to time. We strive to keep up with evolving customer requirements to enhance our existing business and level of customer service. For further information, refer section titled “*Our Business - Our Growth Strategies*” on page 160 of this Prospectus. Our inability to identify, anticipate, understand and address contemporary and evolving customer preferences or to deliver quality service as compared to our competitors could materially and adversely affect our business.

The market perception of our hotels and services may change and this could impact our continued business success and future profitability. If we are unable to adapt our services successfully or meet changes in consumer demands and trends, our business, financial condition, cash flows and results of operations may be materially and adversely affected.

The quality and delivery of our services at our hotels are critical to the success of our business, which requires enhancement to match the evolving customer preferences. These factors depend significantly on the effectiveness of our quality control systems and standard operating procedures, which in turn, depend on the skills and experience of our hospitality personnel, the quality training program, and our ability to ensure that such personnel adhere to our policies and guidelines. Any failure or deterioration of our quality control systems, or our inability to deliver quality services as compared to our competitors, could materially and adversely affect our business, financial condition, results of operations, cash flows and reputation.

31. Several expenses incurred in our operations are relatively fixed in nature, and our inability to effectively manage such expenses may have an adverse effect on our business, results of operations, cash flows and financial condition.

A portion of the expenses incurred in our operations, such as employee related costs, insurance costs, lease rentals for land, power and fuel and finance costs are relatively fixed in nature. Even if the demand for our hotels, or other services is adversely affected, we will be required to continue to incur such costs to maintain our properties. The table below sets out the details of such expenses for the periods/years indicated:

Particulars*	For the stub period September 30, 2024		Fiscal					
			2024		2023		2022	
	Amount (in ₹ Lakhs)	% of total expe nses	Amount (in ₹ Lakhs)	% of total expens es	Amount (in ₹ Lakhs)	% of total expens e	Amount (in ₹ Lakhs)	% of total expens es

Total	1,502.93	63%	1,649.74	63%	989.65	65%	515.59	67%

*The above costs have been classified as fixed expenses based on their nature and may include semi-variable or variable components of expenses.

^ Finance costs consist of interest expenses on borrowings from banks/financial institutions including NBFCs

Our hotels may also be subject to increases in property charges, tax or regulatory charges, utility costs, insurance costs and administrative expenses. While we have not incurred any such increase in costs which led to a material effect on our business or operations in the stub period ended September 30, 2024 and Fiscals 2024, 2023, and 2022, any such occurrences in the future may adversely affect our business, results of operations, cash flows and financial condition.

The hospitality industry experiences periodic changes in demand and supply, which we may not be able to predict accurately. Consequently, we may be unable to reduce fixed and recurring costs in a timely manner, or at all, in response to a reduction in the demand for our services. As a result, during periods when the demand for our hotels decreases, the resulting decline in our revenues could have an adverse effect on our net cash flow, margins and profits. This effect can be more pronounced during periods of economic contraction, or slow economic growth. Similarly, when the demand for hotel rooms increases, our profitability increases disproportionately to the increase in revenues due to economies of scale and operating leverage. Further, during periods when we shut down our hotels for refurbishment and rebranding, we continue to incur certain fixed costs, while not deriving any revenue from such property. Such occurrences could adversely affect our business, results of operations, cash flows and financial condition.

32. We are subject to a number of conditions and restrictions under our financing agreements. Any breach of the terms under our financing arrangements or our inability to meet our obligations, including financial and other covenants under our financing arrangements could adversely affect our business and financial condition.

Our financing agreements contain certain restrictive covenants that limit our ability to undertake certain types of actions, which could adversely affect our business and financial condition. For example, some of our financing agreements require our Company to obtain prior written consent from, or intimate our lenders for, among other things:

- undertaking a change in ownership/ constitution/ shareholding pattern/ control/ management control of the Company, as applicable;
- effecting reduction/ change in shareholding of the Promoters in the Company;
- undertaking a significant change in the composition of the Board;
- effecting a change in directorship of the Promoters resulting in change in management control of the Promoters in the Company, including pledge of shares by Promoters which may potentially change management control;
- formulation or entering into any scheme of amalgamation, reconstruction, demerger, merger, consolidation or compromise;
- incurring any material capital expenditure;
- undertaking a change in name or trade name of the Company; and
- making any amendments to the Memorandum of Association and Articles of Association.

We have obtained necessary consents from our lenders for the Offer and related actions.

As of February 28, 2025, our total borrowings amounted to ₹ 4,547.03 Lakhs. Out of the total borrowings, as of the same date, our secured borrowings amounted to ₹ 4,447.03 Lakhs (i.e. 97.80% of total borrowings). Further, our Company has also provided security in the nature of hypothecation/ mortgage over our properties. For details on our outstanding indebtedness, refer section titled “*Financial Indebtedness*” beginning on page 287 of this Prospectus. Our ability to meet our obligations under our debt financing arrangements, which comprise term loans agreements from time to time, and repayment of our outstanding borrowings will depend primarily on the cash generated by our business.

While we are currently in compliance with the financial covenants specified in our financing arrangements, we cannot assure you that we will continue to comply with all covenants with respect to our financing arrangements in the future or that we will be able to secure waivers for any such non-compliance in a timely manner or at all. Any future inability to comply with the covenants under our financing arrangements or to obtain necessary consents required thereunder may lead to the termination of our credit facilities, levy of penal interest, acceleration of all amounts due under such facilities and the enforcement of any security provided. If the obligations under any of our financing agreements are accelerated, we may have to dedicate a substantial portion of our cash flow from operations to make payments under such financing documents, thereby reducing the availability of cash for our working capital requirements and other general corporate purposes. Further, during any period in which we are in default, we may be unable to raise, or face difficulties raising, further financing. In addition, other third parties may have concerns over our financial position, and it may be difficult to market our financial products. Any of these circumstances or other consequences could adversely affect our business.

33. A substantial portion of the Net Proceeds will be utilized for the repayment, prepayment and/or redemption of certain outstanding borrowings availed of by our Company Further, our funding requirements and the proposed deployment of Net Proceeds have not been appraised by any bank or financial institution or any other independent agency and are based on internal management estimates based on current market conditions.

As of February 28, 2025, we have total outstanding borrowings of ₹ 4,547.03 Lakhs. We intend to utilize ₹ 3,408.08 Lakhs of the Net Proceeds towards the repayment, prepayment and/ or redemption of a portion of the outstanding borrowings availed by our Company i.e. 74.95% of total outstanding borrowings proposed to be repaid from the Net Proceeds. For further details, refer “*Objects of the Offer – Details of the Objects*” on page 113 of this Prospectus.

The funding requirements and deployment of the Net Proceeds mentioned as a part of the objects of the Offer towards repayment / prepayment/ redemption of all or certain portion of outstanding borrowing are based on internal management estimates and have not been appraised by any bank or financial institution or other independent agency. The proposed repayment or prepayment of the loans is subject to various factors including: (i) cost of the borrowing to our Company/JV Partner Entities including applicable interest rates, (ii) any conditions attached to the borrowings restricting our ability to prepay or repay the borrowings and time taken to fulfil, or obtain waivers for fulfilment of such conditions, (iii) receipt of consents for prepayment from the respective lenders, as applicable (iv) terms and conditions of such consents and waivers, (v) levy of any prepayment penalties and the quantum thereof, (vi) provisions of any laws, rules and regulations governing such borrowings, and (vii) other commercial considerations including, among others, the amount of the loan outstanding and the remaining tenor of the loan. At this stage, we cannot determine with any certainty if we would require the Net Proceeds to meet any other expenditure or fund any exigencies arising out of changes in our competitive environment, business conditions, economic conditions or other factors beyond our control. In accordance with the SEBI ICDR Regulations and Sections 13(8) and 27 of the Companies Act, 2013, we cannot

undertake any variation in the utilisation of the Net Proceeds without obtaining the shareholders' approval through a special resolution. In the event of any such circumstances that require us to undertake variation in the disclosed utilisation of the Net Proceeds, we may not be able to obtain the shareholders' approval in a timely manner, or at all. Any delay or inability in obtaining such shareholders' approval may adversely affect our business or operations.

Further, our Promoters would be required to provide an exit opportunity to Shareholders who do not agree with our proposal to change the objects of the Offer or vary the terms of such contracts, at a price and manner as prescribed by SEBI and in accordance with the Companies Act and the SEBI ICDR Regulations. Additionally, the requirement on Promoters to provide an exit opportunity to such dissenting shareholders may deter the Promoters from agreeing to the variation of the proposed utilisation of the Net Proceeds, even if such variation is in the interest of our Company. In light of these factors, we may not be able to undertake variation of objects of the Offer to use any unutilized proceeds of the Offer, if any, or vary the terms of any contract referred to in this Prospectus, even if such variation is in the interest of our Company. This may restrict our Company's ability to respond to any change in our business or financial condition by re-deploying the unutilised portion of Net Proceeds, if any, or varying the terms of contract, which may adversely affect our business, results of operations, cash flows and financial condition.

34. The music we play in our hotels' lobbies and restaurant may be protected under the Copyright Act. As a result of such infringement our Company's reputation may be damaged and the damages we may be required to pay, could have an impact on our cash flow.

We operate in the hotel and hospitality sector and provide a range of amenities designed to enhance the guest experience, including the playing of music in various common areas such as the lobby and restaurant. This practice, while integral to our service offering, carries a risk of copyright infringement.

Our use of pre-recorded music in common areas like lobbies and restaurants is governed by licensing agreements. Currently, we have not obtained the necessary permissions from a collective licensing group to play these recordings. This could impact our ability to continue playing this music, which may adversely affect the customer experience and our operations.

Despite our efforts to adhere to copyright laws for the music we use, there is no absolute assurance that we will be shielded from potential claims. Such claims could result in legal disputes, financial penalties, and additional costs associated with obtaining licenses or negotiating settlements. Moreover, prolonged legal battles or repeated claims could adversely impact our company's reputation and guest perception, potentially affecting our business operations and revenue streams. This inherent risk of copyright disputes remains a challenge that could influence our financial performance and operational stability.

35. Our Registered Office is located on premises taken on a lease basis. There can be no assurance that this or leased agreement will be renewed upon termination, or that we will be able to obtain other premises on leave and license or lease basis on same or similar commercial terms or at all.

Our Registered Office, are located on leased premises. The lease term for our Registered Office is valid for Seventy-Eight months and thereafter renewable for subsequent terms. There can be no assurance that this lease agreement will be renewed upon termination, or that we will be able to obtain other premises on leave and license/lease basis on same or similar commercial terms or at all. While we renew this lease agreement periodically in the ordinary course of business, in the event that this existing lease is terminated or they are not renewed on commercially acceptable terms or at all, we may suffer a disruption in our operations. Our inability to renew the lease agreement on commercially favourable terms may lead to disruptions to our business and have a material adverse impact on our financial condition and results of operations.

36. We are required to comply with data privacy regulations and any non-compliance in the future may have an adverse impact on business, results of operations, cash flows and financial condition.

We are subject to data privacy laws, rules and regulations that regulate the use of customer data. Compliance with these laws, rules and regulations may restrict our business activities, require us to incur significant expenditure and devote considerable time to compliance efforts. The existing and emerging data privacy laws, rules and regulations limit the extent to which we can use personal identifiable information and limit our ability to use third-party firms in connection with customer data. Compliance with these regulations may require changes in the way data is collected, monitored, shared and used, which could increase operating costs or limit the advantages from processing such data. In addition, non-compliance with data privacy regulations may result in fines, damage to reputation or restrictions on the use or transfer of information. Certain of these laws, rules and regulations are relatively new and their interpretation and application remain uncertain and are also subject to change and may become more restrictive in the future. For instance, the Digital Personal Data Protection Act, 2023 ("PDP Act") which has received the assent of the President on August 11, 2023, provides for personal data protection and privacy of individuals, regulates cross border data transfer, and provides several exemptions for personal data processing by the Government. It also provides for the establishment of

a Data Protection Board of India for taking remedial actions and imposing penalties for breach of the provisions of the PDP Act. It imposes restrictions and obligations on data fiduciaries, resulting from dealing with personal data and further, provides for levy of penalties for breach of obligations prescribed under the PDP Act.

In addition, our systems and proprietary data stored electronically, including our guests' sensitive personal and financial information, may be vulnerable to computer viruses, cybercrime, computer hacking and similar disruptions from unauthorized tampering. Such technology systems may also be vulnerable to ransomware attacks, which may block or restrict access to these systems and impair their functionality, unless certain ransom money is paid. If such unauthorized use of our systems were to occur, data related to our customers and other proprietary information could be compromised. The integrity and protection of our customer, employee and company data is critical to our business. Our customers expect that we will adequately protect their personal information. A theft, loss, fraudulent or unlawful use of customer, employee or company data could harm our reputation or result in remedial and other costs, liabilities, fines or lawsuits.

37. Any failure of the information technology systems used in our operations could impair our ability to effectively provide services, which could damage our reputation and adversely affect our business and operations.

We seek to improve our operational efficiencies by implementing holistic asset management plans for our hotels. These include rationalizing sourcing costs, effective workforce management using technology to enhance productivity and drive occupancy and efficient energy management. For instance, on technology front, the company intends to undertake the following projects (a) Back-end process being integrated on cloud based SAAS platform for accounting, procurement, HR etc (b) Planning for a full-blown cloud based SAAS HMS to enable revenue management, reservation management, loyalty management. We have implemented some information technology ("IT") to cover key areas of our services. Our ability to provide consistent and high-quality services is dependent on our IT system for online distribution, central reservation, customer relationship management system and financial accounting. We rely on our IT infrastructure to provide us with connectivity and data backup across our locations and functions. Our operations are vulnerable to interruption by events beyond our control such as fire, earthquake, power loss, telecommunications or internet failures, terrorist attacks and computer viruses. Any breaches of our IT systems may require us to incur further expenditure on repairs or more advanced security systems. A significant system failure could adversely affect our ability to manage overall operations, thereby affecting our ability to deliver our services to our clients, affecting our reputation and revenues.

Furthermore, our systems and technologies, including our website and database, could contain undetected errors or 'bugs' that could adversely affect the performance or could become outdated. We may not be able to replace or introduce upgraded system quickly or within the budgeted costs for such systems/ upgrades. If we experience system failures, our quality of service, customer satisfaction and operational efficiency could be severely harmed, which could also affect our reputation.

38. Our inability to collect receivables in time or at all and default in payment from our corporate customers could result in the reduction of our profits and affect our cash flows.

Our business depends on our ability to successfully obtain payments from our corporate customers for services provided and settlement of transaction with franchisee partners and online portals. We provide credit periods to certain of our corporate or private sector customers. In the hospitality sector, we extend credit to our customers based on agreements entered into with them, which may lead to high receivables.

Set out below are details of our trade receivables including unbilled receivables and receivables less than 6 months as of and for the Fiscals indicated:

Particulars	For the stub period ended September 30, 2024	Fiscal		
		2024	2023	2022
Trade receivables (including unbilled revenue)	683.51	315.27	124.75	253.11
-Undisputed Trade receivables – considered good - Unbilled	94.11	22.69	23.25	18.81
- Less Than 6 months	549.12	292.58	101.50	234.30

[₹ In Lakhs]

Macroeconomic conditions could result in financial difficulties, including insolvency or bankruptcy, for our customers, and as a result could cause customers to delay payments to us, request modifications to their payment arrangements, all of which could increase our receivables or default on their payment obligations to us.

Any increase in defaults by our customers in the future may compel us to utilize greater amounts of our operating working capital, thereby adversely affecting our business, results of operations and cash flows.

39. We have not entered into any arrangements for alternate source of raising the funds required for our “Objects of the Offer”. Any shortfall in raising/meeting the same could adversely affect our growth plans, operations and financial performance.

Our Company has not entered into any definitive arrangement for alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Offer proceeds can adversely affect our growth plan and profitability. The delay/shortfall in raising these Gross Proceeds could result in delay in implementing the project and may require us to borrow the funds on unfavourable terms, both of which scenarios may affect the business operation and financial performance of the Company.

40. An inability to maintain adequate insurance coverage in connection with our business may adversely affect our operations and profitability.

We have obtained a number of insurance policies in connection with our operations and Hotels including property insurance, furniture and fixture insurance, fire insurance and loss of profit. While we are of the opinion that the insurance coverage which our Company maintains for its business would be reasonably adequate to cover the normal risks associated with the operations of our business, we cannot assure you that any claim under the insurance policies maintained by us will be honoured fully, in part or on time, or that we have taken out sufficient insurance to cover all our losses. Our Company’s insurance policies may not provide adequate coverage in certain circumstances and are subject to certain deductibles, exclusions and limits on coverage. In addition, our insurance coverage expires from time to time.

We apply for the renewal of our insurance coverage in the normal course of our business, but we cannot assure you that such renewals will be granted in a timely manner, at acceptable cost or at all. Further, we do not have a key man’s insurance policy covering risks for our key managerial employees. To the extent that we suffer loss or damage for which we did not obtain or maintain insurance, and which is not covered by insurance or exceeds our insurance coverage or where our insurance claims are rejected, the loss would have to be borne by us and our results of operations, cash flows and financial condition may be adversely affected.

There can be no assurance that such transactions, individually or taken together, will not have an adverse effect on our business, prospects, results of operations and financial condition, including because of potential conflicts of interest or otherwise. In addition, our business and growth prospects may decline if we cannot benefit from our relationships with them in the future.

43. An inability to establish and maintain effective internal controls could lead to an adverse effect on our business, results of operations, cash flows and financial condition.

Our success depends on our ability to effectively utilize our resources and maintain internal controls. We take reasonable steps to maintain appropriate procedures for compliance and disclosure. We also maintain effective internal controls over our financial reporting, to enable us to produce reliable financial reports and prevent financial fraud. We periodically test and update our internal processes and systems and are exposed to operational risks arising from the potential inadequacy or failure of internal processes or systems, and our actions may not be sufficient to ensure effective internal checks and balances in all circumstances. Maintaining such internal controls requires human diligence and compliance and is therefore subject to lapses in judgment and failures that result from human error. Our efforts in improving our internal control systems may not result in eliminating all risks. If we are not successful in discovering and eliminating weaknesses in our internal controls, our ability to manage our business effectively may materially and adversely be affected. While we have not faced any lapses in or internal controls in the stub period ended September 30, 2024 and Fiscals 2024, 2023, and 2022, any such lapses in the future may lead to an adverse effect on our business, financial condition, cash flows and results of operations.

44. 45. There can be no assurance that the Objects of the Offer will be achieved within the time frame anticipated or at all, or that the deployment of the Net Proceeds in the manner intended by us will result in any increase in the value of your investment. Further, the plan for deployment of the Net Proceeds has not been appraised by any bank or financial institution.

Further, the plans for deployment of the Net Proceeds are in accordance with our management’s estimates and have not been appraised by any bank or any financial institution. Although we have obtained Cost Assessment Reports which highlights the estimated cost of the project that will be utilised from the Net Proceeds, our Company may have to revise its management estimates from time to time on account of various factors beyond its control, such as market conditions, competitive environment, and interest or exchange rate fluctuations and consequently its requirements may change.

In the event there is a shortfall in the Gross Proceeds raised from this Offer, we may be unable to commission hotel properties mentioned in the section titled “*Objects of the Offer*” on page 113 of this Prospectus. In case of any shortfall of the proceeds raised from this Offer, there can be no assurance that we will be able to raise the funds through other sources to complete the same. In case of shortfall in the proceeds of this Offer which are to be utilized for meeting the objects of the Offer, the shortfall will be met by such means as are available to our Company at such future time and at

the discretion of the management, including by way of cash available with us or by any other means permissible under law. We cannot assure that we will be able to arrange for adequate cash or will be able to procure further loans to meet the funding requirements. Any failure to meet the additional funding requirements will have a material adverse effect on the implementation of the stated object.

We may also be required to adhere to certain restrictive covenants as regards raising of finance for the facility from means other than those sanctioned under our present financing documents. Any failure or delay on our part to raise funds from the Offer or any shortfall in the Fresh Issue proceeds and subsequent inability of our Company to source alternate means of finance may delay the implementation of our object and could adversely affect our growth plans.

46. Our Promoter & Promoter Group have extended personal guarantees and personal properties as collateral security with respect to various loan facilities availed by our Company. Revocation of any or all of these personal guarantees may adversely affect our business operations and financial condition.

Our Promoters, have provided personal guarantees for the working capital and term loan facilities availed by the Company. There can be no assurance that our Company will be able to arrange such alternative securities in a timely manner or at all. If the guarantees are invoked or if the repayment of loan is accelerated or the Bank enforces any of the restrictive covenants or exercise their options under the relevant debt financing arrangement the ability of our Company to continue its business operations could be adversely affected, carrying our operations and use of assets may be hampered significantly and the Bank may demand the repayment of the entire outstanding amount and this in turn may also affect our further borrowing abilities. For further details please refer to the chapter titled “*Financial Indebtedness*” on page 287 of this Prospectus.

48. The average cost of acquisition of Equity Shares held by our Promoter could be significantly lower than the offer Price.

Our Promoters’ average cost of acquisition of Equity Shares in our Company is as follows:

Name of the Promoter & Promoter Group	No. of Shares held	Average Cost of Acquisition per Share (In ₹)*
Mr. Ramesh Siva #	94,50,000	2.81
Mrs. Vidya Ramesh	45,47,300	6.36

**Data as certified by Statutory Auditor, Bhuta Shah & Co LLP, Chartered Accountants by way of their certificate dated March 25, 2025.*

This average cost of acquisition may be lower than the offer price as may be decided by our Company in consultation with the Lead Manager.

49. Our Company will not receive any proceeds from the Offer for Sale. The Selling Shareholder will receive the net proceeds from the Offer for Sale.

This Offer comprises an Offer for Sale of up to 3,28,800 (subject to finalization of basis of allotment) Equity Shares aggregating up to ₹ 371.54 Lakhs. The proceeds from the Offer for Sale will be paid to Promoter Selling Shareholder (after deducting applicable Offer related expenses and relevant taxes thereon) and our Company will not receive any such proceeds. For further details, refer sections titled “*Objects of the Offer*” and “*Capital Structure*” beginning on pages 113 and 99, respectively of this Prospectus.

50. Our Equity Shares have never been publicly traded, and after the Offer, the Equity Shares may experience price and volume fluctuations, and an active trading market for the Equity Shares may not develop. Further, the Offer Price may not be indicative of the market price of the Equity Shares after the Offer

Prior to the Offer, there has been no public market for the Equity Shares, and an active trading market on the Stock Exchange may not develop or be sustained after the Offer. Listing and quotation does not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. Although we currently intend that the Equity Shares will remain listed on the Stock Exchange, there is no guarantee of the continued listing of the Equity Shares. Failure to maintain our listing on the Stock Exchange or other securities markets could adversely affect the market value of the Equity Shares.

The Offer Price of the Equity Shares determined through a book building price process in accordance with the SEBI ICDR Regulations and may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results of our Company, market conditions specific to the industry we operate in, developments relating to India, volatility in securities markets in jurisdictions other than India, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors. You may not be able to resell your Equity Shares at a price that is attractive to you.

51. There is no guarantee that the Equity Shares issued pursuant to the Offer will be listed on the SME Platform of NSE Limited in a timely manner or at all.

In accordance with Indian law and practice, permission for listing and trading of the Equity Shares issued pursuant to the Offer will not be granted until after the Equity Shares have been issued and allotted. Approval for listing and trading will require all relevant documents authorizing the issuance of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on the SME Platform of NSE Limited due to delay in submission of required documents/ completion of formalities/compliance with required laws by the issuer. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares.

52. Our future fund requirements, in the form of further issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the Shareholders depending upon the terms on which they are eventually raised.

We may require additional capital from time to time depending on our business needs. Any further issue of Equity Shares or convertible securities would dilute the shareholding of the existing Shareholders and such issuance may be done on terms and conditions, which may not be favourable to the then existing Shareholders.

If such funds are raised in the form of loans or debt or preference shares, then it may substantially increase our fixed interest/dividend burden and decrease our cash flows, thus adversely affecting our business, results of operations and financial condition.

53. Our Company has not paid dividends on Equity Shares in the past and our ability to pay dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements, capital expenditures and restrictive covenants in our financing arrangements.

The amount of our future dividend payments, if any, will depend upon various factors including our future earnings, financial condition, cash flows, working capital requirements and capital expenditures. Since incorporation, our Company has not paid any dividend as the profits of our Company were invested in our Company for the purposes of incurring capital expenditure. There can be no assurance that we will be able to declare dividends. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on various factors.

54. None of the directors of our Company have any prior experience of directorship of any listed entity. Inexperience of director(s) to act as directors in any other listed entity within India may impact the business operations and performance of the company

Majority of our Directors do not have prior experience as directors of companies listed on recognized stock exchange. While our Directors have experience in the hospitality industry, directors of listed companies have a wide range of responsibilities, including, among others, ensuring compliance with continuing listing obligations, monitoring and overseeing management, operations, financial condition and trajectory of the company. We cannot assure you that our Directors will be able to adequately manage our Company after we become a listed company, due to their lack of prior experience as directors of companies listed on recognized stock exchange. Accordingly, we will get limited guidance from them and accordingly, may fail to maintain and improve the effectiveness of our disclosure controls, procedures and internal control as required for a listed entity under the applicable law.

55. We have certain contingent liabilities and capital commitments disclosed in our financial statements and our financial condition could be adversely affected if any of these contingent liabilities or capital commitments materialize.

The following is a summary table of our contingent liabilities and capital commitments as per AS – Provisions, Contingent Liabilities, as of the dates indicated:

[₹ in lakhs]

Particulars	For the stub period ended September 30, 2024	Fiscal 2024	Fiscal 2023	Fiscal 2022
Estimated amount of unexecuted contracts on capital account not provided for	112.92	83.56	4.47	-
Amount of liability outstanding for the year under Income Tax Act	18.99	18.98	13.16	11.97
Amount of liability outstanding for the year under GST Act	10.13	10.13	10.13	10.13

Our contingent liabilities may become actual liabilities. We cannot assure you that we will not incur similar or increased levels of contingent liabilities or capital commitments in the future. If any of these contingent liabilities materialize or if at any time, we are compelled to pay all or a material proportion of these contingent liabilities, our financial condition, cash flows and results of operation may be adversely affected.

56. We have undertaken, and may continue to undertake, strategic acquisitions, joint ventures and investments, which may not perform in line with our expectations or may be prone to other contingencies.

We have historically undertaken joint ventures to expand portfolio of our hotel properties and service offerings. As part of our growth strategy, we are focused on evaluating opportunities to grow through inorganic means, in particular through joint venture arrangement or acquisitions of existing hotel properties, which can be operated by us.

Our Company has entered into a joint venture (JV) arrangement structured as a partnership firm under the name M/s Grand Seven Hill Hotels (GSHH) through a partnership deed with Mr. R. Vijay Raghava Reddy, Mr. Ayush Vijay Reddy and Mr. Adith Vijay Reddy to operate one of our key properties namely Hotel Golden Tulip – Tirupati, located in Andhra Pradesh (Tirupati). Our Company has also entered into another JV arrangement structured as a partnership firm under the name ‘M/s Grand Continent Hotels - 1’(GCH-1) through a partnership deed with LiftX and to operate one of our key property namely Hotel Regenta Inn - ORR Mahadevapura located in Karnataka, under the Golden Tulip/Tulip Inn brand. For further details, refer section titled “*History and Certain Corporate Matters – Joint Venture Agreements*” beginning on page 194 of this Prospectus.

The success of joint ventures that we undertake depends, in part, on our ability to realize the anticipated growth opportunities, financial and operational, and synergies from these businesses, which require substantial management attention and efforts as well as additional expenditures. In the event that we are not able to pursue any opportunities on account of the terms and conditions stipulated in the joint venture agreement/ partnership deed, our business, financial condition and results of operations may be adversely affected.

57. We could be adversely affected due to misconduct, errors or frauds of our employees that are difficult to detect and any such incidents could adversely affect our financial condition, results of operations and reputation.

Employee misconduct, errors or frauds could expose us to business risks or losses, including regulatory sanctions and damage our reputation. There can be no assurance that we will be able to detect or deter such misconduct. Moreover, the precautions we take to prevent and detect such activity may not be effective in all cases. Our employees may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected.

Our business is also exposed to the risk of theft, fraud, pilferage by employees, misappropriation of funds or inventory, and other similar misconduct which could result in losses at the hotels in our portfolio. We have not experienced any instances of employee theft, fraud, misappropriation of funds or other similar misconduct in the past three Financial Years and the six months period ended September 30, 2024 that materially affected our business and results of operations. However, an increase in the levels of misappropriation at the hotels in our portfolio may require us to deploy more security staff and increase surveillance, which would increase our operational costs and adversely affect our profitability. While we incur expenses on hiring security personnel and installing surveillance equipment at the hotels in our portfolio in order to mitigate the risk of theft, fraud, pilferage by employees, misappropriation of funds or inventory, and other similar incidents which result in misappropriation at the hotels in our portfolio, we cannot assure

you that we will be successful in preventing all such incidents in the future, which may expose us to litigation and/or have an adverse effect on our business, results of operations, financial condition and cash flows. In addition, while we maintain insurance coverage for burglary in our portfolio, such insurance may not be sufficient to cover losses on account of any significant thefts.

58. We rely on independent contractors for renovation of our hotel properties and any failure on their part to perform their obligations could adversely affect our business, results of operations, and cash flows

We utilize independent contractors for renovation of our hotel properties. If a contractor fails to perform its obligations satisfactorily or within the prescribed time periods with regard to a project, or terminates its arrangement with us, we may be unable to complete the project within the intended timeframe and at the intended cost. In the past three Financial Years, we have not incurred any losses as a result of our independent contractor's failure to perform their obligations. However, we cannot assure you that the services rendered by any of our contractors will always be satisfactory or match our requirements for quality and complete the project work in timely manner.

59. The requirements of being a public listed company may strain our resources and impose additional requirements.

With the increased scrutiny of the affairs of a public listed company by shareholders, regulators and the public at large, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur in the past. We will also be subject to the provisions of the listing agreements signed with the Stock Exchange. In order to meet our financial control and disclosure obligations, significant resources and management supervision will be required. As a result, management's attention may be diverted from other business concerns, which could have an adverse effect on our business and operations. There can be no assurance that we will be able to satisfy our reporting obligations and/or readily determine and report any changes to our results of operations in a timely manner as other listed companies. In addition, we will need to increase the strength of our management team and hire additional legal and accounting staff with appropriate public company experience and accounting knowledge, and we cannot assure that we will be able to do so in a timely manner. Failure of our Company to meet the listing requirements of stock exchange could lead to imposition of huge penalties, if any including suspension of trading, imposed by the Stock Exchange.

60. We have not yet placed orders in relation to the funding capital expenditure requirements towards hotel properties which is proposed to be financed from the Net Proceeds of the Offer. In the event of any delay in placing the orders, or in the event the vendors are not able to execute the contract in a timely manner, or at all, may result in time and cost over-runs and our business, prospects and results of operations may be adversely affected.

We intend to use a part of the Net Proceeds from the Offer for funding capital expenditure requirements of five hotel premises aggregating to ₹ 1,679.24 Lakhs (100% of the capital expenditure that is proposed to be funded through Net Proceeds), for further details, refer section titled "*Objects of the Offer – Details of the Objects of the Offer – Expansion of our Hotel properties in India*" on page 113 of this Prospectus. We are yet to place orders for the capital expenditure for the proposed plan. We have not entered into any definitive contract to utilize the net proceeds for this object of the Offer. Additionally, in the event of any delay in placement of such orders, the proposed schedule of implementation and deployment of the Net Proceeds may be extended or may vary accordingly.

We cannot assure you that we will be able to undertake such capital expenditure within the cost indicated by such quotations or that there will not be cost escalations. Our proposed plan may be subject to potential problems and uncertainties that projects may face including cost overruns or delays. Problems that could adversely affect our plans include increased costs of materials or manpower, delays in completion, defects in design or construction, the possibility of unanticipated future regulatory restrictions, delays in receiving governmental, statutory, environmental and other regulatory approvals, incremental pre-operating expenses, taxes and duties, environment and ecology costs and other external factors which may not be within the control of our management.

Further, there can be no assurance that our budgeted costs may be sufficient to meet our proposed capital expenditure requirements. If our actual capital expenditures significantly exceed our budgets, or even if our budgets were sufficient to cover these projects, we may not be able to achieve the intended economic benefits of these hotel properties, which in turn may materially and adversely affect our financial condition, results of operations, cash flows, and prospects.

EXTERNAL RISKS

- 1. A substantial portion of our business and operations are located in India and as such, we are subject to regulatory, economic, social and political uncertainties in India, many of which are beyond our control.**

The Indian economy and capital markets are influenced by economic, political and market conditions in India and globally. We are incorporated in India, and almost all of our business and all of our personnel are located in India. Consequently, our business, cash flows and results of operations will be affected by a number of macroeconomic and demographic factors in India which are beyond our control. In particular, our total income and profitability are strongly correlated to consumer discretionary spending in India, which is influenced by general economic conditions, salaries and employment levels and consumer confidence. Recessionary economic cycles, a protracted economic slowdown, a worsening economy, increased unemployment, increased energy prices, rising interest rates or other industry-wide cost pressures could also affect consumer behaviour and spending for BPC products and lead to a decline in our total income and profitability.

While our results may not necessarily track India's economic growth figures, the Indian economy's performance affects the environment in which we operate. These factors could have an adverse effect on our business, financial condition, cash flows and results of operations.

Any slowdown or perceived slowdown in the Indian economy, or in specific sectors of the Indian economy, could adversely affect our business, results of operations, cash flows and financial condition and the price of the Equity Shares.

- 2. Any Penalty or demand raised by statutory authorities in future will affect financial position of the Company**

Our Company is engaged in the hospitality industry, which attracts tax liability such as Goods and Service tax and Income tax as per the applicable provisions of Law. We are also subject to the labour laws like depositing contributions with Provident Fund (PF), Employee State Insurance (ESI) etc. Any demand or penalty raised by the concerned authority in future for late payments or non-payments for any previous year and current year will affect the financial position of the Company. For instance, our company in the past had delayed filing of GSTR1/ GSTR3B due to operational reasons and accordingly paid late fees and penalties on the same. Any demand or penalty raised by the concerned GST/ Income Tax/ EPF/ESI/PF or any other statutory authority for such late filings may affect the financial position of the company. The Company has now implemented strict monitoring and improved processes to ensure timely filing of returns and timely statutory payments in the future.

- 3. Changing laws, rules and regulations and legal uncertainties, including any adverse application of corporate and tax laws, may adversely affect our business, cash flows, prospects and results of operations.**

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes, including the instances mentioned below, may adversely affect our business, cash flows, results of operations and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy.

For instance, GoI has notified the Finance Act, 2021 ("Finance Act"), which introduced various amendments to the taxation laws in India. Under the Finance Act, in the absence of a specific provision under an agreement, the liability to pay stamp duty in case of sale of securities through stock exchange will be on the buyer, while in other cases of transfer for consideration through a depository, the onus will be on the transferor. The stamp duty for transfer of securities other than debentures, on a delivery basis is specified at 0.015% and on a non-delivery basis is specified at 0.003% of the consideration amount. Further, GoI has announced the union budget for Fiscal 2025 and the Ministry of Finance has notified the Finance Act, 2024 ("Finance Act 2024"). There is no certainty on the impact that the Finance Act 2024 may have on our business and operations or on the industry in which we operate. We cannot predict whether any amendments made pursuant to the Finance Act 2024 would have a material adverse effect on our business, financial condition and results of operations. Unfavourable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals.

In India, the Supreme Court, in a judgment delivered on 24 August 2017, has held that the right to privacy is a fundamental right. Following this judgment, the Government of India is considering the enactment of the Personal Data Protection Bill, 2022 on personal data protection for implementing organizational and technical measures in processing personal data and lays down norms for cross-border transfer of personal data and to ensure the accountability of entities processing personal data. The enactment of the aforesaid bill may introduce stricter data protection norms for a company such as us and may impact our processes.

Further, the GoI introduced new laws relating to social security, occupational safety, industrial relations and wages namely, the Code on Social Security, 2020 ("Social Security Code"), the Occupational Safety, Health and Working Conditions Code, 2020, the Industrial Relations Code, 2020 and the Code on Wages, 2019, which consolidate, subsume

and replace numerous existing central labor legislations, were to take effect from April 1, 2021 (collectively, the “Labour Codes”). The GoI has deferred the effective date of implementation of the respective Labour Codes, and they shall come into force from such dates as may be notified. Different dates may also be appointed for the coming into force of different provisions of the Labour Codes. While the rules for implementation under these codes have not been finalized, as an immediate consequence, the coming into force of these codes could increase the financial burden on our Company, which may adversely impact our profitability. For instance, under the Social Security Code, a new concept of deemed remuneration has been introduced, such that where an employee receives more than half (or such other percentage as may be notified by the Central Government) of their total remuneration in the form of allowances and other amounts that are not included within the definition of wages under the Social Security Code, the excess amount received shall be deemed as remuneration and accordingly be added to wages for the purposes of the Social Security Code and the compulsory contribution to be made towards the employees’ provident fund.

Unfavourable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals. We may incur increased costs and other burdens relating to compliance with new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, cash flows, results of operations and prospects. Uncertainty in the application, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current business or restrict our ability to grow our businesses in the future.

4. A downgrade in ratings of India, may affect the trading price of the Equity Shares.

India’s sovereign debt rating could be downgraded due to several factors, including changes in tax or fiscal policy or a decline in India’s foreign exchange reserves, all which are outside the control of our Company. Our borrowing costs and our access to the debt capital markets depend significantly on the sovereign credit ratings of India. Any adverse revisions to India’s credit ratings for domestic and overseas debt by international rating agencies may adversely impact our ability to raise additional external financing, and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of the Equity Shares.

5. Our ability to raise foreign debt may be constrained by Indian law.

As an Indian company, we are subject to exchange controls that regulate borrowing in foreign currencies. Such regulatory restrictions limit our financing sources and could constrain our ability to obtain financings on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that any required regulatory approvals for borrowing in foreign currencies will be granted to us without onerous conditions, or at all. Limitations on raising foreign debt may have an adverse effect on our business growth, financial condition, cash flows and results of operations.

6. Financial instability in other countries may cause increased volatility in Indian financial markets

The Indian market and the Indian economy are influenced by economic and market conditions in other countries, including conditions in the United States, Europe and certain emerging economies in Asia. Financial turmoil in Asia, Russia and elsewhere in the world in recent years has adversely affected the Indian economy. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and us.

Furthermore, economic developments globally can have a significant impact on India. In particular, the global economy has been negatively impacted by the conflict between Russia and Ukraine. Governments in the United States, United Kingdom, and European Union have imposed sanctions on certain products, industry sectors, and parties in Russia. The conflict could negatively impact regional and global financial markets and economic conditions, and result in global economic uncertainty and increased costs of various commodities, raw materials, energy and transportation. In addition, recent increases in inflation and interest rates globally, including in India, could adversely affect the Indian economy.

In addition, China is one of India’s major trading partners and there are rising concerns of a possible slowdown in the Chinese economy as well as a strained relationship with India, which could have an adverse impact on the trade relations between the two countries. The sovereign rating downgrades for Brazil and Russia (and the imposition of sanctions on Russia) have also added to the growth risks for these markets. These factors may also result in a slowdown in India’s export growth. Any significant financial disruption could have an adverse effect on our business, financial condition, cash flows and results of operation.

7. If inflation rises in India, increased costs may result in a decline in profits and result of operations may be adversely affected.

Inflation rates in India have been volatile in recent years, and such volatility may continue. Increasing inflation in India could cause a rise in the costs of third-party suppliers and contract manufacturers, rents, wages, raw materials and other expenses. In recent years, India has experienced consistently high inflation, especially and increasingly so in recent months, which has increased the price of, among other things, our rent, raw materials and wages. Further, while the Government of India has previously initiated economic measures to combat high inflation rates, it is unclear whether these measures will remain in effect, and there can be no assurance that Indian inflation levels will not worsen and rise in the future. If we are unable to increase our revenues sufficiently to offset our increased costs due to inflation, it could have an adverse effect on our business, prospects, financial condition, results of operations and cash flows.

8. Subsequent to the listing of the Equity Shares, we may be subject to pre-emptive surveillance measures, such as the Additional Surveillance Measures and the Graded Surveillance Measures by the Stock Exchange in order to enhance the integrity of the market and safeguard the interest of investors.

Subsequent to the listing of the Equity Shares, we may be subject to Additional Surveillance Measures (“ASM”) and Graded Surveillance Measures (“GSM”) by the Stock Exchange. These measures are in place to enhance the integrity of the market and safeguard the interest of investors. The criteria for shortlisting any security trading on the Stock Exchange for ASM is based on objective criteria, which includes market based parameters such as high low price variation, concentration of client accounts, close to close price variation, market capitalization, average daily trading volume and its change, and average delivery percentage, among others. Securities are subject to GSM when its price is not commensurate with the financial health and fundamentals of the issuer. Specific parameters for GSM include net worth, net fixed assets, price to earnings ratio, market capitalization and price to book value, among others. Factors within and beyond our control may lead to our securities being subject to GSM or ASM. In the event our Equity Shares are subject to such surveillance measures implemented by any of the Stock Exchange, we may be subject to certain additional restrictions in connection with trading of our Equity Shares such as limiting trading frequency (for example, trading either allowed once in a week or a month) or freezing of price on upper side of trading which may have an adverse effect on the market price of our Equity Shares or may in general cause disruptions in the development of an active trading market for our Equity Shares.

9. Our business may be adversely affected by adverse application or interpretation of competition laws in India.

The Competition Act, 2002, as amended (“Competition Act”), regulates and was enacted for the purpose of preventing practices that have or are likely to have an appreciable adverse effect on competition (“AAEC”) in the relevant market in India and mandates the Competition Commission of India (the “CCI”) to separate such practices. Under the Competition Act, any formal or informal arrangement, understanding or action in concert, which causes or is likely to cause an AAEC, is considered void and results in the imposition of substantial monetary penalties. Further, any agreement among competitors which directly or indirectly involves the determination of purchase or sale prices, limits or controls production, supply, markets, technical development, investment or provision of services, shares the market or source of production or provision of services, including by way of allocation of geographical area, type of goods or services in the relevant market or directly or indirectly results in bid-rigging or collusive bidding, is presumed to have an AAEC and is considered void. The Competition Act also prohibits abuse of a dominant position by any enterprise. If it is proved that the contravention committed by a company took place with the consent or connivance or is attributable to any neglect on the part of any director, manager, secretary or other officer of such company, that person shall also be guilty of the contravention and may be punished.

The Competition Act aims to, among other things, prohibit all agreements and transactions which may have an AAEC on competition in India. The Competition Act also includes provisions in relation to combinations which require any acquisition of shares, voting rights, assets or control or mergers or amalgamations, which cross the prescribed asset and turnover based thresholds, to be mandatorily notified to and pre-approved by the CCI. While certain agreements entered into by us could be within the purview of the Competition Act, the impact of the provisions of the Competition Act on the agreements entered into by us cannot be predicted with certainty at this stage. Further, the CCI has extra-territorial powers and can investigate any agreements, abusive conduct or combination occurring outside India if such agreement, conduct or combination has an AAEC in India. In the event we pursue an acquisition in the future, we may be affected, directly or indirectly, by the application or interpretation of any provision of the Competition Act, or any enforcement proceedings initiated by the CCI, or any adverse publicity that may be generated due to scrutiny or prosecution by the CCI, or if any prohibition or substantial penalties are levied under the Competition Act, it would adversely affect our business, financial condition, cash flows and results of operations. The manner in which the Competition Act and the CCI affect the business environment in India may also adversely affect our business, financial condition, cash flows and results of operations.

10. Investors may be subject to Indian taxes arising out of capital gains on the sale of our Equity Shares and dividend received.

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares in an Indian company is generally taxable in India. A securities transaction tax (“STT”) is levied on and collected by an Indian stock exchange on which equity shares are sold. Any gain realized on the sale of listed equity shares held for more than 12 months may be subject to long-term capital gains tax in India at the specified rates depending on certain factors, such as STT paid, the quantum of gains and any available treaty exemptions. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of STT, on the sale of any Equity Shares held for more than 12 months. Further, any gain realized on the sale of our Equity Shares held for a period of 12 months or less will be subject to short-term capital gains tax in India. While non-residents may claim tax treaty benefits in relation to such capital gains income, generally, Indian tax treaties do not limit India’s right to impose tax on capital gains arising from the sale of shares of an Indian company.

Pursuant to the Finance Act, 2020 and after March 31, 2020, dividends declared, distributed or paid by a domestic company would not be exempt in the hands of both resident and non-resident shareholders and are subject to tax deduction at source. Our Company may or may not grant the benefit of a tax treaty (where applicable) to a non-resident shareholder for the purposes of deducting tax at source pursuant to any corporate action including dividends. Further, the Finance Act, 2019 introduced new provisions under the Indian Stamp Act, 1899, which provide that in the absence of a specific provision under an agreement, the liability to pay stamp duty in case of sale of securities through stock exchange will be on the buyer, while in other cases of transfer for consideration through a depository, the onus will be on the transferor. The stamp duty for transfer of securities other than debentures, on a delivery basis is specified at 0.015% and on a non-delivery basis is specified at 0.003% of the consideration amount.

We cannot predict whether any tax laws or other regulations impacting it will be enacted, or predict the nature and impact of any such laws or regulations or whether, if at all, any laws or regulations would have a material adverse effect on our business, financial condition, cash flows and results of operations.

11. Foreign investors are subject to foreign investment restrictions under Indian law that limit our ability to attract foreign investors, which may adversely impact the market price of our Equity Shares.

As an Indian company, we are subject to exchange controls that regulate borrowing in foreign currencies, including those specified under FEMA and the rules thereunder. Under foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to certain restrictions), if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or falls under any of the exceptions referred to above, then a prior regulatory approval of the RBI will be required. Additionally, shareholders who seek to convert Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India require a no-objection or a tax clearance certificate from the Indian income tax authorities.

Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT as consolidated in the FDI Policy with effect from October 15, 2020, and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which share a land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country, will require prior approval of the Government of India. Any such approval(s) would be subject to the discretion of the regulatory authorities. Restrictions on foreign investment activities and impact on our ability to attract foreign investors may cause uncertainty and delays in our future investment plans and initiatives.

Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/purview, such subsequent change in the beneficial ownership will also require approval of the Government of India. These investment restrictions shall also apply to subscribers of offshore derivative instruments.

We cannot assure you that any required approval from the RBI or any other governmental agency can be obtained on any particular terms or at all. For further information, refer section titled “*Restrictions on Foreign Ownership of Indian Securities*” on page 374 of this Prospectus.

12. The determination of the Price Band is based on various factors and assumptions, and the Offer Price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Offer.

The determination of the Price Band is based on various factors and assumptions, and has been determined by our Company in consultation with the BRLM. Furthermore, the Offer Price of the Equity Shares has been determined by

our Company in consultation with the BRLM through the book building process prescribed under the SEBI ICDR Regulations.

The Offer Price is based on numerous factors, as described under section titled “*Basis for Offer Price*” on page 126 of this Prospectus and may not be indicative of the market price for our Equity Shares after the Offer. The market price of our Equity Shares could be subject to significant fluctuations after the Offer and may decline below the Offer Price. In addition, the stock market often experiences price and volume fluctuations that are unrelated or disproportionate to the operating performance of a particular company. These broad market fluctuations and industry factors may materially reduce the market price of the Equity Shares, regardless of our Company’s performance. As a result of these factors, there can be no assurance that investors will be able to resell their Equity Shares at or above the Offer Price.

13. Any future issuance of our Equity Shares or convertible securities or other equity linked instruments by our Company may dilute prospective investors’ shareholding, and sales of our Equity Shares by our major shareholders may adversely affect the trading price of our Equity Shares.

We may be required to finance our growth through future equity offerings. Any future equity that we issue, including a primary offering of Equity Shares, convertible securities or securities linked to Equity Shares, including through the exercise of employee stock options, may lead to the dilution of investors’ shareholdings in our Company. Any future issuances of Equity Shares or the disposal of Equity Shares by our major shareholders including our Promoters, or the perception that such issuance or sales may occur, may adversely affect the trading price of our Equity Shares, which may lead to other adverse consequences including difficulty in raising capital through offering of our Equity Shares or incurring additional debt. There can be no assurance that we will not issue further Equity Shares or that the shareholders will not dispose of, pledge or encumber their Equity Shares. Any future issuances could also dilute the value of your investment in our Equity Shares. In addition, any perception by investors that such issuances or sales might occur may also affect the market price of our Equity Shares.

14. The current market price of some securities listed pursuant to certain previous issues managed by the BRLM is below their respective issue prices.

The current market price of securities listed pursuant to certain previous initial public offerings managed by the BRLM is below their respective issue prices. For further information, refer section titled “*Other Regulatory and Statutory Disclosures – Price information of past issues handled by the BRLM*” on page 316 of this Prospectus. The factors that could affect the market price of our Equity Shares include, among others, broad market trends, financial performance and results of our Company post-listing, and other factors beyond our control. We cannot assure you that an active market will develop or that sustained trading will take place in our Equity Shares, or provide any assurance regarding the price at which our Equity Shares will be traded after listing.

15. QIBs and Non-Institutional Bidders are not permitted to withdraw or lower their bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid, and Retail Individual Bidders are not permitted to withdraw their bids after Bid/Issue Closing Date.

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Investors are required to pay the Bid amount on submission of the Bid and are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid amount) at any stage after submitting a Bid. Similarly, Retail Individual Investors can revise or withdraw their bids at any time during the Bid/Issue Period and until the Bid/Issue Closing Date, but not thereafter. While we are required to complete all necessary formalities for listing and commencement of trading of our Equity Shares on all Stock Exchange where such Equity Shares are proposed to be listed, including Allotment, within such period as may be prescribed under applicable law, adverse events affecting the investors’ decision to invest in our Equity Shares may arise between the date of submission of the Bid and Allotment. Therefore, QIBs and Non-Institutional Investors will not be able to withdraw or lower their bids following adverse developments in international or national monetary policy, financial, political or economic conditions, our business, results of operations, cash flows or otherwise at any stage after the submission of their bids. Our Company may complete the Allotment of our Equity Shares even if such events occur, and such events limit the Bidders’ ability to sell our Equity Shares Allotted pursuant to the Offer or cause the trading price of our Equity Shares to decline on listing.

16. Holders of Equity Shares may be restricted in their ability to exercise pre-emptive rights under Indian law and thereby suffer future dilution of their ownership position.

Under the Companies Act, a company incorporated in India and having share capital must offer its equity shareholders pre-emptive rights to subscribe and pay for a proportionate number of equity shares to maintain their existing ownership percentages prior to issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three-fourths of the equity shares voting on such resolution. However, if the law of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without our filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such

pre-emptive rights unless we make such a filing. If we elect not to file a registration statement, the new securities may be issued to a custodian, who may sell the securities for your benefit. The value such custodian receives on the sale of any such securities and the related transaction costs cannot be predicted. To the extent that you are unable to exercise pre-emptive rights granted in respect of our Equity Shares, your proportional equity interests in us may be reduced.

17. A third party could be prevented from acquiring control of our Company because of anti-takeover provisions under Indian law.

Certain provisions in Indian law may delay, deter or prevent a future takeover or change in control of our Company, even if a change in control would result in the purchase of your Equity Shares at a premium to the market price or would otherwise be beneficial to you. Such provisions may discourage or prevent certain types of transactions involving actual or threatened change in control of our Company. Under the Takeover Regulations, an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. Although these provisions have been formulated to ensure that interests of investors/shareholders are protected, these provisions may also discourage a third party from attempting to take control of our Company. Consequently, even if a potential takeover of our Company would result in the purchase of our Equity Shares at a premium to their market price or would otherwise be beneficial to its stakeholders, it is possible that such a takeover would not be attempted or consummated because of the SEBI Takeover Regulations.

18. Investors may have difficulty enforcing foreign judgments in India against us or our management

Our Company is a company incorporated under the laws of India and most of our Directors, Key Managerial Personnel, members of Senior Management and officers are residents of India. A substantial portion of our assets are located in India. As a result, it may be difficult for investors to effect service of process upon our Company or such persons in jurisdictions outside India, or to enforce judgments obtained against such parties outside India predicated upon civil liabilities on us or such directors and executive officers under laws other than Indian Law.

Recognition and enforcement of foreign judgments is provided for under Section 13 and Section 44A of the Code of Civil Procedure, 1908. India is not party to any international treaty in relation to the recognition or enforcement of foreign judgments. India has reciprocal recognition and enforcement of judgments in civil and commercial matters with only a limited number of jurisdictions, such as the United Kingdom, United Arab Emirates, Singapore and Hong Kong. In order to be enforceable, a judgment from a jurisdiction with reciprocity must meet certain requirements established in the Indian Code of Civil Procedure, 1908. The CPC only permits the enforcement and execution of monetary decrees in the reciprocating jurisdiction, not being in the nature of any amounts payable in respect of taxes, other charges, fines or penalties. Judgments or decrees from jurisdictions which do not have reciprocal recognition with India, including the United States, cannot be enforced by proceedings in execution in India. Therefore, a final judgment for the payment of money rendered by any court in a non-reciprocating territory for civil liability, whether or not predicated solely upon the general laws of the non-reciprocating territory, would not be directly enforceable in India. The party in whose favor a final foreign judgment in a non-reciprocating territory is rendered may bring a fresh suit in a competent court in India based on the final judgment within three years of obtaining such final judgment. However, it is unlikely that a court in India would award damages on the same basis as a foreign court if an action were brought in India or that an Indian court would enforce foreign judgments if it viewed the amount of damages as excessive or inconsistent with the public policy in India. Further, there is no assurance that a suit brought in an Indian court in relation to a foreign judgment will be disposed of in a timely manner. In addition, any person seeking to enforce a foreign judgment in India is required to obtain the prior approval of the RBI to repatriate any amount recovered, and we cannot assure that such approval will be forthcoming within a reasonable period of time, or at all, or that conditions of such approval would be acceptable. Such amount may also be subject to income tax in accordance with applicable law.

19. The ability of investors to acquire and sell Equity Shares is restricted by the distribution and transfer restrictions set forth in this Prospectus.

No actions have been taken to permit a public offering of our Equity Shares in any jurisdiction, other than India. As such, our Equity Shares have not and will not be registered under the U.S. Securities Act, any state securities laws or the law of any jurisdiction other than India. Furthermore, our Equity Shares are subject to restrictions on transferability and resale. You are required to inform yourself about and observe these restrictions. Refer section titled “*Other Regulatory and Statutory Disclosures – Disclaimer in Respect of Jurisdiction*” on page 316 of this Prospectus. We, our representatives and our agents will not be obligated to recognize any acquisition, transfer or resale of our Equity Shares made other than in compliance with the restrictions set forth herein.

20. Investors will not be able to sell any Equity Shares they purchase in the Offer until we receive the appropriate listing and trading approvals.

Our Equity Shares will be listed on the Stock Exchange. Pursuant to applicable Indian laws, certain actions must be completed before our Equity Shares can be listed and trading of our Equity Shares may commence, including the

crediting of the Investors' "demat" accounts within the timeline specified under applicable law. Further, in accordance with Indian law, permission for listing of our Equity Shares will not be granted until after our Equity Shares in this Offer have been Allotted and submission of all other relevant documents authorizing the issuing of our Equity Shares. There could be a failure or delay in listing of our Equity Shares on the Stock Exchange. Any failure or delay in obtaining the approval or otherwise to commence trading in our Equity Shares would restrict investors' ability to dispose of their Equity Shares. There can be no assurance that our Equity Shares will be credited to investors' demat accounts, or that trading in our Equity Shares will commence, within the prescribed time periods or at all. We could also be required to pay interest at the applicable rates if allotment is not made, refund orders are not dispatched or demat credits are not made to investors within the prescribed time periods.

21. Rights of shareholders of companies under Indian law may be different compared to the laws of other jurisdictions.

Our Articles of Association, composition of our Board, Indian laws governing our corporate affairs, the validity of corporate procedures, directors' fiduciary duties, responsibilities and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights under Indian law may not be as extensive and widespread as shareholders' rights under the laws of other countries or jurisdictions. Investors may face challenges in asserting their rights as a shareholder in an Indian company rather than as a shareholder of an entity in another jurisdiction.

22. We cannot guarantee the accuracy or completeness of facts and other statistics with respect to India, the Indian economy and industry in which we operate contained in the Red Herring Prospectus.

While facts and other statistics in the Red Herring Prospectus relating to India, the Indian economy and the industry in which we operate has been based on various web site data and KEN Research that we believe are reliable, we cannot guarantee the quality or reliability of such materials. While we have taken reasonable care in the reproduction of such information, industry facts and other statistics have not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore we make no representation as to their accuracy or completeness. These facts and other statistics include the facts and statistics included in the chapter titled "*Our Industry*" beginning on page 141 of this Prospectus. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

23. Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

Our Company intends to utilize an aggregate amount of ₹3,408.08 Lakhs from the Net Proceeds towards repayment/ prepayment of all or a portion of certain earmarked outstanding borrowings availed by the Company. Pursuant to the terms of the borrowing arrangements, prepayment of certain indebtedness may attract prepayment charges as prescribed by the respective lender. Such prepayment charges, as applicable, will also be funded out of the Net Proceeds. In addition, we believe that this would improve our ability to raise further resources in the future to fund potential business development opportunities.

The selection of borrowings proposed to be prepaid or repaid or redeemed amongst our borrowing arrangements will be based on various factors, including (i) maturity profile and the remaining tenor of the loan, (ii) cost of the borrowing, including applicable interest rates, (iii) any conditions attached to the borrowings, restricting our ability to prepay/ repay the borrowings and time taken to fulfil, or obtain waivers for fulfilment of such conditions, or relating to the terms of repayment, (iv) levy of any prepayment penalties and the quantum thereof, (v) provisions of any laws, rules and regulations governing such borrowings, and (vi) other commercial considerations including, among others, the amount of the loan outstanding.

The abovementioned factors will also determine the form of investment undertaken by our Company for prepayment/ repayment of the borrowing arrangements availed by our recent acquisitions. INDUSTRY OVERVIEW

Global Macroeconomic Outlook

The global economy has shown remarkable resilience as it bounces back from the challenges posed by the COVID-19 pandemic. After a strong initial rebound from the depths of the COVID-19 pandemic, the pace of recovery has moderated. Several forces are holding back the recovery. Some reflect the long-term consequences of the pandemic, Russia’s war in Ukraine, and increasing geo-economic fragmentation. Others are more cyclical, including the effects of monetary policy tightening necessary to reduce inflation, withdrawal of fiscal support amid high debt, and extreme weather events.

According to the International Monetary Fund (IMF)’s World Economic Outlook growth projections, the global economic growth for CY23 was 4.1% year-on-year (y-o-y), up from 3.8% in CY22 (Figure 2.1) due to recovery from the COVID-19 pandemic, fiscal and monetary stimulus, stabilized supply chains, increased consumer spending, digital transformation, a rebound in international trade, and renewed business investments in technology and healthcare. The global economic growth for CY24 is projected to stand at 4.5%, attributed to growth resilience in major economies driven by high government and private spending, rapidly subsiding inflation rates, and advanced economies easing their fiscal policies. Global inflation is forecast to decline steadily, from 6.2% in 2023 to 5.3% in 2024 and 4.0% in 2025.

For advanced economies, growth is expected to slow down from 5.5% in 2023 to 4.0% in 2024. The United States, the world’s largest economy, is expected to see a drop in GDP growth from 6.3% in 2023 to 5.2% in 2024. Consumer spending, a key driver of its economy, is likely to weaken due to various factors, including high interest rates and a softening labor market. The Euro area experienced a significant growth of 9.0% in 2023 and is expected to stabilize at 3.4% growth rate in 2024 & 2025 after a decline of 3.6% in 2022. This recovery is underpinned by stronger household consumption as the impact of energy price shocks diminishes, coupled with a decrease in inflation, thereby bolstering real income growth. Japan & Germany also face significant economic headwinds, with growth rates forecasted at -2.4% & 2.9% respectively in 2024.

Global nominal GDP has grown at a CAGR of 4.6% over the past five years (Figure 2.1). Three years post the largest economic shock, recovery continues with widening regional growth disparities.

INDIAN ECONOMIC OUTLOOK

GDP Growth and Outlook

Strong economic growth in the first quarter of FY23 helped India overcome the UK to become the fifth-largest economy after it recovered from the COVID-19 pandemic shock. India's appeal as a destination for investments has grown stronger and more sustainable because of the current period of global unpredictability and volatility, and the record amounts of money raised by India-focused funds in 2022 are evidence of investor faith in the "Invest in India" narrative.

Sectoral Gross Value Addition Composition Of the three major sectors, the service sector has been the fastest-growing sector in the last 5 years registering a CAGR of 9.8%.

The agriculture sector was holding growth momentum till FY18. In FY19, the acreage for the rabi crop was marginally lower than the previous year, which affected agricultural performance. FY20 witnessed growth on account of improved production.

During the pandemic-impacted period of FY21, the agriculture sector was largely insulated as timely and proactive exemptions from COVID-induced lockdowns facilitated uninterrupted harvesting of rabi crops and sowing of kharif crops. However, supply chain disruptions impacted the flow of agricultural goods, leading to high food inflation and an adverse initial impact on some major agricultural exports. Performance remained steady in FY22.

In FY23, the agriculture (including livestock, forestry & fishing) sector performed well despite weather-related disruptions, such as uneven monsoon and unseasonal rainfall, impacting yields of some major crops. It clocked a growth of 9.4% y-o-y, garnering INR 44.8 trillion. In FY24, this sector expanded at a slower pace of 5.4%, with the weakest monsoon experience caused by El Nino conditions (Figure 2.9).

In the Interim Budget 2024-25, the government plans to boost private and public investment in post-harvest activities and expand the application of Nano-DAP across agro-climatic zones. Strategies for self-reliance in oilseeds and dairy development are to be formulated, alongside ramping up the Pradhan Mantri Matsya Sampada Yojana and establishing Integrated Aquaparks. Allocation for the PM-Formalisation of Micro Food Processing Enterprises scheme has increased from INR 639 crores in FY24 to INR 880 crores in FY25.

The industrial sector witnessed a CAGR of 9.8% for the period FY16 to FY19. From March 2020 onwards, the nationwide lockdown due to the pandemic significantly impacted industrial activities. In FY20 and FY21, this sector experienced turbulence due to the pandemic, recording growth rates of -1.0% and 0.9% respectively, on a y-o-y basis. With the opening up of the economy and resumption of industrial activities, it registered y-o-y growth of 25.2% in FY22.

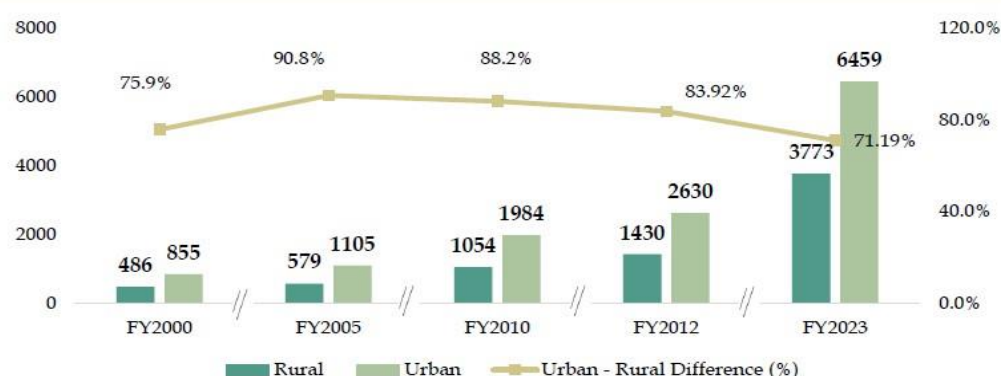

The industrial output in FY23 grew by 9.1%, with an estimated value of INR 68.1 trillion, owing to a rebound in manufacturing activities and healthy growth in the construction sector. The industrial sector grew by 8.5% in FY24 owing to positive business optimism and strong growth in new orders that supported manufacturing output. (Figure 2.9) The industrial growth was mainly supported by sustained momentum in the manufacturing and construction sectors. Within manufacturing, industries such as pharma, motor vehicles, metals, and petroleum witnessed higher production growth during the quarter.

India's industrial sector is experiencing strong growth, driven by significant expansion in manufacturing, mining, and construction. This growth is supported by positive business sentiment, declining commodity prices, beneficial government policies like production-linked incentive schemes, and efforts to boost infrastructure development. These factors collectively contribute to the sustained buoyancy in industrial growth.

The Services sector recorded a CAGR of 11.2% for the period FY16 to FY20, led by trade, hotels, transport, communication, services related to broadcasting, finance, real estate, and professional services. This sector was the hardest hit by the pandemic and registered an 5.5% y-o-y decline in FY21. The easing of restrictions aided a fast rebound in this sector, with y-o-y growth of 18.6% and 18.3% witnessed in FY22 and FY23 respectively.

Overall, in FY24, benefiting from pent-up demand, the service sector was valued at INR 146.4 trillion and registered growth of 9.6% y-o-y. (Figure 2.9) Within services, there was a broad-based improvement in growth across different sub-sectors. However, the sharpest jump was seen in financial, real estate, and professional services. Trade, hotels, and transport sub-sectors expanded at a healthy pace, gaining from strength in discretionary demand.

INDIA HOTELS INDUSTRY LANDSCAPE AND POSITIONING OF MID-SCALE HOTELS

India's hotel industry has witnessed a robust turnaround in demand after the pandemic, led by the rising discretionary spending on tours and travels, revenge tourism, improving economic environment fuelling corporate travels and revival of mega wedding season and other cultural events.

As of 2023, India has over 400,000 keys including branded hotels and independently run hotels. Of this, the current branded inventory market size as of 2023 stands at ~180,000, accounting for around 44% of the overall market.

Figure 4.3 illustrates the segmentation of India's hotel room supply across these segments. Hotel rooms in the INR 3,000-5,000 ADR range are particularly prominent, reflecting strong demand for affordable yet comfortable accommodations.

The Indian mid-scale hotels segment has emerged as a critical growth driver within the broader hospitality industry, fueled by a combination of rising domestic travel, changing consumer preferences, and increasing disposable incomes. **This segment caters to the rapidly growing middle-class and value-conscious travelers, positioning itself between the budget and luxury hotel categories, offering a balance of affordability and comfort.**

INDIA MID-SCALE HOTELS MARKET

Travelers today are seeking more than just basic accommodation; they expect comfortable stays, modern amenities, and services that align with international standards, all while remaining cost-conscious. This shift has significantly contributed to the growth of the mid-scale market, transforming it into one of the most competitive and innovative segments in India.

The growth of domestic tourism, changing lifestyles, increasing affinity towards competitively priced branded hotels and expansion of business activity to Tier 2 & 3 cities have bolstered the popularity of Mid-market or Midscale hotels in India in the recent past. Both domestic and international hotel companies with established as well as new midscale brands have increased their presence in the country to leverage the growing demand from middle-income domestic travelers and international budget travelers, especially in Tier 2, 3 & 4 cities.

The India mid-scale hotels market has evolved significantly over the past decade. Initially dominated by independent hotels and regional players, the segment saw a shift as international and national hotel chains recognized the potential in catering to middle-income travelers. Indian hotel chains such as Bloom hotels, Fortune Park, Ginger, Lemon Tree Hotels, Royal Orchids, Sarovar Hotels Sayaji Hotels, The Grand Continent Hotel and more have established a strong presence across the country, offering standardized yet affordable experiences. At the same time, global brands like Holiday Inn Express, ibis, and Fairfield by Marriott have expanded their mid-scale portfolios in India.

Mid-scale hotels in India are increasingly transitioning from the traditional economy select-service model to a more comprehensive full-service approach, driven by evolving customer expectations and heightened competition. Originally, these hotels focused primarily on offering basic services such as clean rooms, limited dining options, and essential amenities at affordable prices. However, as travelers seek more enriched experiences, mid-market hotels have expanded their offerings to enhanced facilities like multiple dining options, wellness centers, meeting spaces, and recreational services.

Trends such as flexible booking options, dynamic pricing, standardized guest experience, integrated leisure and business amenities are becoming vital differentiators for mid-scale hotels in capturing the evolving preferences of modern travelers.

The market has significant potential for expansion in the coming years, fueled by several key factors such as the robust increase in domestic tourism; the growing middle class, alongside their evolving lifestyles; a significant uptick in business travel, particularly from small and medium-sized enterprises (SMEs); and the broadening scope of business activities into Tier 2, 3, and 4 cities.

Furthermore, the advent of the digital era and the spread of online travel agencies (OTAs) have significantly simplified the process for travelers to locate and reserve hotel accommodations, enhancing accessibility and visibility for the midscale segment. Together, these economic, social, and technological trends are spurring demand for midscale hotels, which provide a blend of quality, affordability, and convenience, amidst a landscape of rising consumer expectations.

Market Key Performance Indicators

The COVID-19 pandemic significantly impacted the Indian mid-scale hotels market, leading to a decline in key performance indicators such as Revenue per Available Room (RevPAR), Occupancy Rate, and Average Daily Rate (ADR) from 2019 to 2021. However, the industry witnessed a strong recovery in 2022, with both ADR and RevPAR surpassing pre-pandemic levels, while occupancy rates showed substantial improvement.

As of 2023, the Average Daily Rate (ADR) in the mid-scale hotels market of India stood at INR 4,806, with an occupancy rate of 63.7%, resulting in a RevPAR of INR 3,061.

Looking ahead, with continued growth in domestic tourism, rising demand from business travelers, and increased digital adoption in the hospitality sector, the ADR is projected to reach INR 5,798 by 2029, reflecting a CAGR of 3.2%. Occupancy rates are also expected to see an upward trend, driven by improved infrastructure, expansion of travel segments, and a focus on value-driven offerings, reaching 64.4% by 2029, with RevPAR rising to INR 3,734.

Unit Economics of a Mid-Scale Hotels in India:

The mid-scale hotels segment in India is heavily driven by the preferences of cost-conscious yet experience-focused travelers. **Unlike luxury hotels, where additional services contribute significantly to the overall revenue, mid-scale hotels see a dominant reliance on room revenue, reflecting the priorities of their typical guests.** It is worth noting that new mid-scale properties typically take 12 to 18 months to achieve stable occupancy levels (60-70%), depending on factors such as the property's location in a high-demand tourist or business hub, brand affiliation, seasonality, market conditions, and the effectiveness of its marketing, distribution strategy, and guest experience. In cases where the location is favourable and guest experience is positive, this period can shorten to 6-12 months.

Understanding the unit economics of this segment is essential for optimizing profitability, as hotels must strike a balance between offering quality accommodations and managing operational expenses efficiently. This section delves into the financial structure of a typical mid-scale hotel, highlighting key revenue sources and expense drivers that may shape its operational success.

Room revenue, constituting 80-85% of total revenue, remains the primary source of income for mid-scale hotels, underscoring the importance of maintaining high occupancy rates and optimizing room pricing strategies.

Labor cost is one of the largest components of the expense structure, a reflection of the service-oriented nature of the hospitality industry. Efficient staff management, training, and adopting automation technologies can help mitigate these expenses without compromising service quality.

In the current scenario, operating profit margin ranges between 30% to 45%. Tight control over operational expenses, especially SWB and HLFP (Table 5.1), will be key to improving margins. The implementation of automation, sustainable practices, and energy-efficient technologies will allow hotels to cut unnecessary costs.

Market Segmentations By Ownership Type:

The India mid-scale hotels market is broadly segmented into two categories basis ownership type: **chained or branded hotels** and **independently owned hotels**. As of 2023, independent hotels continue to dominate the market in terms of the number of

properties. However, there is a noticeable shift in consumer preference toward branded hotels, driven by demand for standardized services and consistency in offerings. **While independent hotels retain a significant market share, they face challenges in competing with the consistency and brand recognition that larger hotel chains provide.**

In 2023, the supply of chained mid-scale hotel rooms reached 111,264, accounting for a 47.9% share of the mid-scale segment. (Figure 5.5)

The overall revenue generated from chained and independent mid-scale hotel segments stood at INR 171.9 Bn & INR 144.4 Bn respectively.

Table 5.2 Chained vs Independent Mid-Scale Hotels Market basis important KPIs, 2023

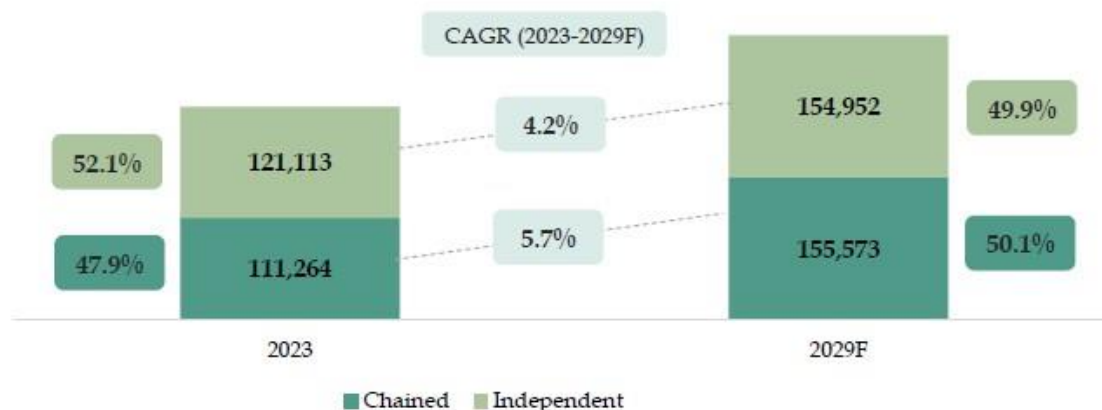

KPI	Chained Mid-Scale Hotels	Independent Mid-Scale Hotels
Average ADR	INR 5,166	INR 4,476
Occupancy Rate	~64.0%	~63.5%
Revenue Generated	INR 171.9 Bn	INR 144.4 Bn

Source: Interviews with Industry Experts & Ken Research Analysis

The chained mid-scale hotel segment is projected to grow at a CAGR of 5.7% from 2023 to 2029, reaching 155,573 rooms by the end of the forecast period. Conversely, the supply of rooms in independent mid-scale hotels is expected to grow at a slower CAGR of 4.2% during the same period.

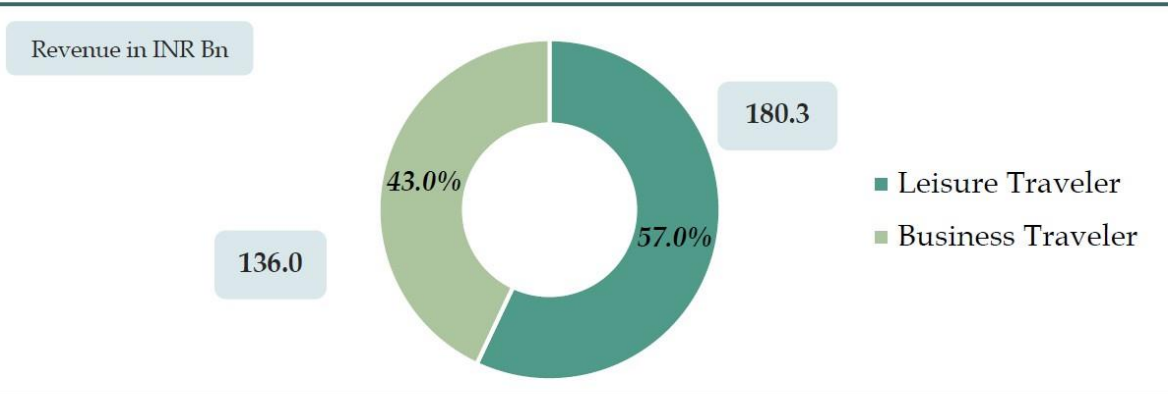

In response to the increasing demand for branded accommodations, there is a rising trend of major hotel chains acquiring or taking over independent properties. This allows them to rapidly expand their portfolio while enhancing the value proposition of previously unbranded hotels.

Figure 5.6 Split of India Mid-Scale Hotel Market by Traveler Type, 2023

By Traveler Type:

The India mid-scale hotel market is segmented primarily into two customer types: business travelers and leisure travelers. In 2023, leisure travelers dominated the market, accounting for 57.0% of total revenue, generating INR 180.3 billion. Business travelers contributed 43.0% of the revenue, amounting to INR 136.0 billion.

The emphasis on mid-scale accommodations by corporate clients stems from the need to balance travel budgets while still ensuring a satisfactory level of service and amenities for business meetings and stays. **In 2023, India's business travel spending surged by almost 25%** reaching 78% of pre-pandemic levels. In 2024, the projected growth in business travel and meetings and events, is likely to grow by 18%. India is the ninth-largest market globally for business travel expenditure and the fourth-largest in the Asia Pacific region.

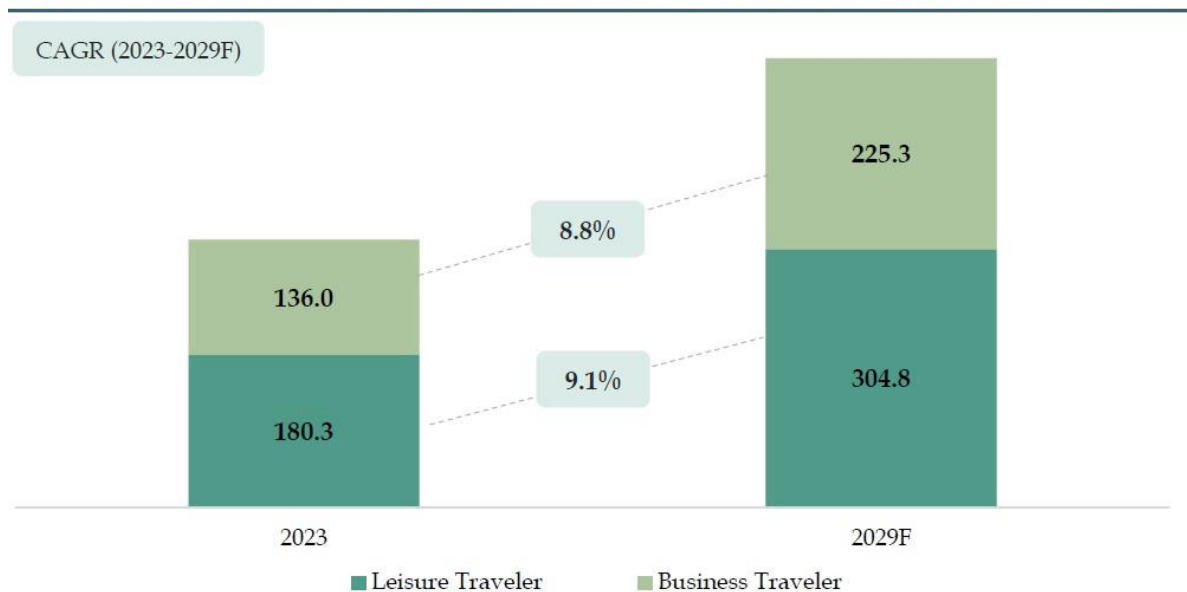

Mid-scale hotels offer an appealing mix of affordability and amenities, making them the go-to option for leisure travelers seeking comfortable yet reasonably priced stays. The Leisure segment continues to expand and contribute positively. Room revenue share of 5 markets – Goa, Jaipur, Udaipur, Uttarakhand and HP almost doubled, from 8.5% for 2019 to 16.9% for 2023.

In 2023, the **leisure traveler** segment of India's mid-scale hotel market was led by **families**, contributing **38.0%** of total revenue, or **INR 120.2 billion**. Families continue to be a key driver in this space, particularly due to the need for affordable, family-friendly accommodations that cater to larger groups, especially in popular vacation destinations.

Couples and honeymooners made up **30.0%** of the segment, generating **INR 94.9 billion** in revenue, as mid-scale hotels provide a balance of comfort and affordability, making them ideal for romantic getaways and honeymoon packages. The **friends** segment, accounting for **21.0%** and generating **INR 66.4 billion**, is largely fueled by the increasing trend of group leisure trips, especially among young professionals who seek cost-effective accommodations without compromising on quality or shared experiences. Lastly, **solo travelers**, although a smaller segment at **11.0%** with **INR 34.8 billion** in revenue, reflect a growing trend of independent travel. Mid-scale hotels are often the preferred choice for these travelers due to their combination of affordability, convenience, and safety, particularly in urban and adventure-centric destinations.

While, the business travelers' segment is expected to grow at a CAGR of 8.8% to reach revenue generation of INR 225.3 Bn in 2029, the leisure segment will continue to dominate with revenue share of 57.5% and CAGR of 9.1% during the forecast period.

By Service Offerings:

India's mid-scale hotels offer a diverse range of services, catering primarily to room accommodation, food and beverage services, event hosting, and spa & wellness amenities. However, at the mid-scale level, accommodation dominates the revenue structure, accounting for over 80% of total revenue in 2023, driven by the affordable yet comfortable lodging it provides to both business and leisure travelers. Food and beverage services rank second in revenue contribution, largely due to the growing demand for on-site dining and catering services at mid-scale hotels.

By 2029, the revenue split shows increasing diversification: accommodation will still command the largest share but food and beverage, events, and wellness offerings will continue to catch up, driven by rising traveler expectations and increased competition in the mid-scale hospitality sector.

In India, the hotel industry is primarily regulated by the **Ministry of Tourism**, which oversees the promotion and development of tourism, including hotel classification into different star categories (1-Star to 5-Star) based on quality and services. The Ministry also provides policy frameworks, issues guidelines, and implements schemes to support the sector. **State Tourism Departments** manage licensing and ensure compliance with local regulations at the state level. Additionally, the **Federation of Hotel and Restaurant Associations of India (FHRAI)** helps promote industry standards, while hotels must comply with food safety regulations from the **Food Safety and Standards Authority of India (FSSAI)** and other local laws.

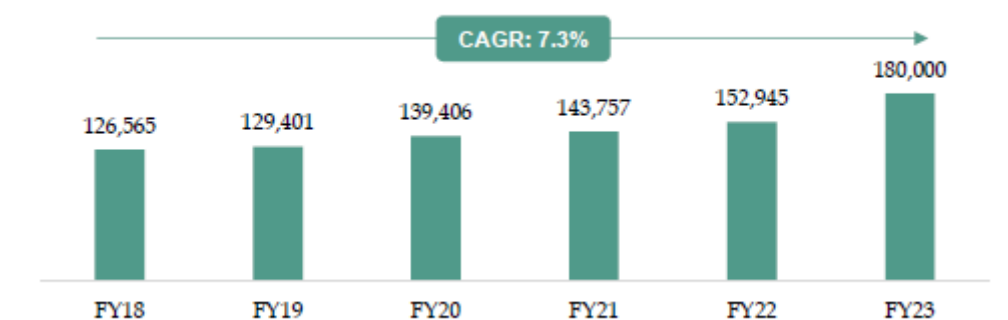

KEY TRENDS AND DEVELOPMENTS

Rise of Branded Hotels in Mid-Scale Segment

The mid-scale hotel segment is experiencing a significant shift **as budget-conscious consumers increasingly prioritize trust and reliability in their accommodations**. This has led to a growing demand for branded hotels, with many standalone properties converting to established hotel chains. The appeal of branding offers a win-win for both standalone hotels and chains, driving higher occupancy rates and improved Average Daily Rates.

Conversions often take place through various models, such as management contracts, where the hotel owner retains ownership while the chain handles operations; franchise agreements, where the chain provides branding and marketing support; or lease agreements, where the owner rents the property to the chain. **For example, Fern, a midscale hotel brand, opened 1,500 new rooms in 2022, with 70% being conversions from unbranded hotels.**¹³ Fern also signed 24 new hotels that year, seven of which were conversions. **This trend reflects the broader industry shift towards brand trust, signaling a new era of growth and consolidation in the mid-scale hotel segment.**

Source: Hotelivate

Technology & Digital Transformation

The mid-scale hotel segment is witnessing a significant transformation driven by technological advancements aimed at enhancing guest experiences and operational efficiency. One of the key trends is the rise of contactless and automated services. Mid-scale hotels are adopting mobile check-ins, keyless room access, and automated customer support through chatbots. **For example, Sarovar Hotels has reimaged the check-in process, allowing guests to comfortably sit in the lounge and check in via a tablet brought to them by staff.** They are also leveraging WhatsApp groups to monitor guest requests and ensure any issue is addressed swiftly, escalating complaints if not resolved within 30 minutes. This real-time approach ensures a smooth, efficient operation while also improving guest satisfaction.

Hotels are also adopting smart devices for energy management, housekeeping, and room service, cutting down operational costs and optimizing resource usage.

Current investments in digital tools and automation are not enough to create lasting impact across the mid-scale segment. To truly revolutionize, hotels must explore a variety of avenues — from artificial intelligence (AI) and machine learning (ML) to virtual reality (VR) and smart devices. For instance, virtual reality can offer immersive previews of rooms and destinations, allowing potential guests to experience the hotel's offerings before they book.

Tier-II & III cities as Emerging Markets

With increasing disposable incomes and a growing middle class, tier-2 & 3 cities are emerging as important economic centers, attracting both business and leisure travelers. In addition to the growth of small towns, the hospitality industry is

also benefiting from the **over-saturation of major metro cities**. Cities like Mumbai, Delhi, and Bengaluru have reached a saturation point with the existing number of hotels, which means that the demand for hotels is shifting to smaller cities.

Religious and Spiritual Tourism

India is home to a wealth of sacred sites such as Amritsar, Varanasi, Rishikesh, Katra, Kedarnath, and Tirupati, which are playing a crucial role in shaping the country's growing domestic tourism industry. Following the pandemic, travel motivated by spiritual and religious reasons has become a clear trend among travelers. **A 2022 ICICI Direct survey highlighted this, noting Varanasi's remarkable 720 lakh tourists, which significantly surpassed Goa's 5 lakh visitors.** According to the Ministry of Tourism, these religious hubs contributed approximately ₹1.3 lakh crore in revenue and attracted around 1.43 billion visitors in 2022. Contrary to the belief that spiritual tourism primarily appeals to older generations, this trend spans across age groups.

KEY GROWTH DRIVERS

Rising Disposable Income and Affluence

With the Indian middle class growing and having more spending power, domestic tourism is increasing, leading to a growing demand for hotel accommodations. In the first three months of 2024, Indian airports served 97 million passengers, a number that took an entire year to reach just a decade ago. **With more people willing to spend on experiences, travel has become a priority for many Indian households.** Moreover, mid-scale hotels have adapted to the evolving needs of their guests by incorporating technology and personalized services. Features such as free Wi-Fi, flexible check-in/check-out policies, and loyalty programs further enhance their appeal, making them a preferred choice for a growing segment of the population.

As more consumers move into the middle-income bracket, the demand for quality yet affordable accommodation is rising, positioning mid-scale hotels perfectly to meet this growing need. **Unlike budget hotels, which often lack essential services and amenities, mid-scale hotels offer well-appointed rooms,** superior customer service, and facilities like dining, fitness centers, and business services. This makes them an attractive option for middle-income families, business travelers, and leisure tourists who seek comfort and convenience at a reasonable price.

Urbanization & Infrastructural Development

Urbanization and infrastructure development are pivotal factors driving the growth of the mid-scale hotel market in India, particularly in tier 2 and tier 3 cities. As these markets experience rapid urbanization, improved connectivity, and enhanced infrastructure, they are becoming increasingly attractive for both travelers and hotel developers. The rise of tier 2 and tier 3 cities can be largely attributed to better connectivity through improved road, rail, and air transport options, which have made these cities more accessible and are encouraging both leisure and business travel.

The Indian Government is actively promoting infrastructure development to support economic growth and attract investments in emerging markets. Significant projects, such as the Mumbai Trans Harbour Link and the Dwarka Expressway, are set to enhance connectivity in major metropolitan areas, reducing travel times and making these regions more appealing for businesses and travelers alike. Additionally, projects like the Vizhinjam International Transshipment Deepwater Multipurpose Seaport in Trivandrum and the Delhi-Dehradun Expressway are expected to drive real estate activity and enhance tourism prospects in their respective areas. These infrastructure advancements not only boost local

MAJOR MARKET CHALLENGES & THREATS

Market Challenges:

Increasing Competition with Highly Fragmented Market

The mid-scale hotel sector in India is characterized by increasing competition amid a highly fragmented landscape. Almost every city features a mix of numerous branded and unbranded hotels, including both family-owned establishments and larger chains. Historically, the supply of branded hotels was concentrated in the luxury and premium segments, driven primarily by foreign tourism. However, the significant rise in domestic tourism has prompted many **hotel brands to venture into the mid-range market, intensifying competition** within this segment.

The presence of well-established properties complicates the competitive environment, as **customers now have an abundance of options at their disposal.** This saturation diminishes **pricing power** for hotels, forcing them to compete aggressively on rates and amenities. The proliferation of online hotel aggregators has further intensified this trend, allowing customers to easily compare prices and availability across various properties, which in turn drives down rates and **increases pressure on margins.**

Capital-intensive Industry with Long Gestation Period

The mid-scale hotel industry in India faces significant challenges due to its capital-intensive nature and extended gestation periods of 5-10 years. Prime hotel locations often command high land prices, elevating **initial investment requirements**. Additionally, constructing a hotel involves **substantial costs** related to safety measures, high-quality building standards, and aesthetically pleasing interiors and furnishings.

Owners must allocate considerable resources, both finances and time, before realizing any returns. The need for substantial working capital is further **compounded by the cyclical and seasonal nature** of the hospitality business. While peak seasons can generate substantial revenue, off-peak periods can lead to underutilization, resulting in **financial strain as operational costs persist year-round**. This creates an ongoing challenge for hoteliers in managing liquidity and ensuring sustainability.

Shortage of Skilled Labor

Most branded hotels in India today are severely underpowered. **The current shortfall in the branded hotels space is 80,000- 100,000 people. These hotels require 1.2-1.5 million people every year and this requirement is growing at a CAGR of 5.5-5.6%**¹⁵. This shortage hampers operational efficiency, impacts service quality, and constrains growth potential, posing a critical challenge for maintaining competitive standards and meeting increasing market demands.

Fluctuations in Demand

The India mid-scale hotel market faces significant challenges due to fluctuations in demand. The peak season, from October to April, benefits from high activity such as weddings, but July to September see a marked slowdown. **This reliance on seasonal variations affects occupancy rates and RevPAR, leading to slower growth during off-peak months**. Additionally, the market is vulnerable to economic fluctuations and external factors like political instability or pandemics, further complicating revenue stability and forecasting.

Consumer Price Sensitivity

Price sensitivity among consumers has become a significant challenge in the mid-scale hotel sector. **With a growing number of budget-conscious travelers and increased price comparison tools, guests are more focused on finding the best value for their money**. Chains with well-established brands might leverage their scale to offer competitive pricing or value-added services without compromising profitability. In contrast, independent hotels, which may lack the same scale efficiencies, face greater pressure to adjust pricing strategies and offer compelling value propositions to attract price-sensitive customers.

Market Threats:

Rising Competition from Alternative Accommodations

The diversified offerings from hospitality industry in terms of alternative accommodation option like homestays, villas, hostels, apartments, short-term rentals are playing an important role in meeting the evolving demands of travelers. These alternatives often offer unique experiences and competitive pricing, attracting a segment of travelers seeking more personalized or cost-effective options, posing a significant threat to mid-scale hotels.

According to Booking.com's Travel Predictions 2023, a significant 4 of Indian travelers now seek "off-grid" style vacations. Travelers are actively seeking unconventional and unique stays to enhance their travel experiences such as villas, treehouses, camps, boathouses and other distinctive options, rather than traditional hotel settings. According to Booking.com's recent earnings results, alternative accommodations room nights globally rose about 45.0% year-on-year, representing about 33.0% of the brand's total room nights.

Rigid Lease Agreements

Rigid clauses and terms under lease and management contracts between hotel operators and property owners pose a significant threat to operational flexibility and financial stability. These agreements often contain **stringent early termination and exit clauses**, which can lead to considerable **financial penalties for hotel operators**. Such burdens strain cash flow, particularly in an industry where margins are tight, forcing operators to remain tied to underperforming properties.

Moreover, the inflexibility of these agreements **limits strategic options**, hindering the ability to adapt to changing market dynamics and consumer preferences. Legal complexities arising from disputes over lease terms can further divert resources away from core operations, impacting overall efficiency and reputation.

Finally, stringent lease conditions can **deter potential investors** by raising concerns about operational risks and limiting access to necessary capital for growth and innovation.

Environmental Regulations and Sustainability Pressures:

Increasing environmental regulations and sustainability expectations are putting pressure on mid-scale hotels to adopt eco-friendly practices. Compliance with regulations related to waste management, energy efficiency, and resource conservation can lead to increased operational costs. Hotels need to integrate sustainable practices into their operations and communicate their environmental initiatives to meet regulatory requirements and appeal to eco-conscious travelers.

COMPETITIVE LANDSCAPE

India's mid-scale hotel market is dynamic and highly competitive, driven by the country's growing middle class, increasing domestic travel, and expanding business hubs across metros and Tier II & III cities. The sector serves a diverse clientele, including budget-conscious business and leisure travelers, who seek a balance between affordability and comfort. This demand has created a competitive environment where both domestic and international players vie for market share through geographic expansion, service differentiation, and aggressive pricing strategies.

The market has also seen significant interest from international hotel brands, which are expanding their mid-scale offerings in India. These global players bring established brand names and loyalty programs, often appealing to business travelers and foreign tourists. However, they face stiff competition from domestic chains that better understand local consumer preferences and are more agile in adapting to regional market needs.

Amid this competitive landscape, the importance of brand differentiation, customer experience, and technology integration has become increasingly crucial. Chains that can innovate, whether through digital booking platforms, loyalty programs, or unique service offerings, are better positioned to capture market share. Additionally, scaling operations quickly to increase room inventory, particularly in non-metro cities, is seen as a critical success factor for mid-scale hotel operators.

Our Promoter, Mr. Ramesh Siva, who is also our Chairman and Managing Director, has more than two decades of experience in the hotel and hospitality industry. He has demonstrated ability to manage and grow operations organically and also by acquiring and integrating hotels. The leadership team of our Company has extensive experience in identifying hospitality destinations and securing of hotels under lease considering factors such as Location, economic potential, target customers and branding.

Our dedicated in-house asset management team includes experienced hospitality professionals to oversee key operational aspects, such as procurement, marketing, human resource management and capital expenditure decisions. Our asset management practices are designed to provide a comfortable experience for guests, tenants and consumers and are driven by comprehensive procedures aimed at improving the operational performance of our assets through increased occupancy rates and revenue generation, as well as enhanced cost efficiencies. All our hotel properties are well staffed with security, front desk, housekeeping and food and beverages service coverage to ensure that we create a well-rounded service experience for our guest.

We believe that we are well-positioned to benefit from growing hospitality demand fuelled by several key factors such as the robust increase in domestic tourism; the growing middle class, alongside their evolving lifestyles; a significant uptick in business travel, particularly from small and medium-sized enterprises (SMEs); and the broadening scope of business activities into Tier 2, 3, and 4 cities. The Foreign Tourist Arrivals (FTAs) in India continued to grow from 2.54 million in 2001, 6.31 million in 2011 to reach 10.93 million in year 2019. Subsequently, after opening of the economy post COVID -19 Pandemic, tourism has shown increasing signs of revival. In year 2022, India registered 6.44 million FTAs i.e. attained around 60% of pre-pandemic level with a growth of 323.7% over 2021. In 2023, 9.23 million foreign tourists visited India. Although the FTAs arrival tally still remains less than the pre-pandemic number of 10.93 million in 2019, 2024 numbers are expected to surpass it. Domestic tourist visits have grown substantially post pandemic, fuelled by rising disposable incomes, an expanding middle class, and a shift in lifestyle choices that prioritize travel and leisure. Additionally, better road networks, improved rail and air connectivity, and the expansion of affordable accommodation options have made travel more accessible to a wider audience. The top 5 states in domestic tourist visits in 2022 were Uttar Pradesh (317.9 Mn), Tamil Nadu (218.6 Mn), Andhra Pradesh (192.8 Mn), Karnataka (182.4 Mn) and Gujarat (135.8 Mn) with their respective shares being 18.4%, 12.6%, 11.1%, 10.5% and 7.8%. These 5 States accounted for about 60.5% of the total domestic tourist visits in the country (*Source: Ken Research*).

We plan to continue focusing on our core strength of developing upper-midscale and midscale hospitality assets and to increase the number of keys across our hospitality assets by an estimated 1,500 keys, from 753 keys as at September 30, 2024 to approximately 2000+ keys in FY2026 through our planned development and expansion initiative as detailed in chapter on “*Objects of the Offer*” along with acquisition of properties from internal accruals and through debt funding. For details on target list of properties being funded via objects of the issue, please refer chapter on “*Objects of the Offer*” on page 113 of this Prospectus.

We plan to focus on increasing our ARR through leveraging our valued position in our key markets and established relationships with hotel operators and franchisee partners. We intend to continue to capitalize on the quality of our management and scale of our existing Portfolio to further drive operational efficiencies, reduce costs and improve margins. We intend to take advantage of opportunities for strategic developments and acquisitions. In addition, we believe that our stable annuity cash flows and debt headroom will provide us with financial flexibility to maintain a competitive advantage for future acquisitions of hotel properties.

PROPERTY LAUNCH CYCLE

Once we identify and finalize a prospective property, we sign a Letter of Intent (LOI) with the landlord, agreeing on key contract terms, including the facility's composition, the landlord's responsibilities, and commercial terms. Typically, the landlord handles structural work, fixed fixtures, and high-side equipment. We may involve our architects to ensure the quality of these elements meets our standards, especially in terms of aesthetics and finishes. After the property is handed over, we usually require anyway between 90 - 120 days to get the property operational which includes soft furnishings, kitchen setup, IT deployment, and staff training.

Our Property Selection & Launch Journey

Process is completed between 2 - 6 Months

Staff recruitment and onboarding procedures-

When opening a new hotel, we carefully assess the staffing needs across various functions, including Front Desk, Housekeeping, Horticulture, Maintenance, Food Service, Food Production, Security, Accounts, and Materials Management. We evaluate the right mix of experienced professionals and fresh talent required for the hotel's operations. During the pre-opening phase, we conduct intensive training for the entire staff. This training focuses on property knowledge, guest interaction, understanding hotel systems and processes, and specific functional skills. This ensures that our team is fully prepared to deliver exceptional service from day one.

We believe our hospitality assets are destinations of choice due to their quality, positioning and unique offerings. Our asset management practices are designed to provide an exceptional experience for guests and are driven by comprehensive procedures aimed at improving the operational performance of our assets through increased occupancy rates and revenue generation, as well as enhanced cost efficiencies. We have a dedicated in-house asset management team that collaborates closely with our hotel properties to oversee key operational aspects, such as key procurement, marketing and capital expenditure decisions

Asset enhancement initiatives

We strive to enhance the operational performance of our assets through targeted asset enhancement initiatives, such as renovations, refurbishments and other measures to optimize the use of available space. These initiatives have typically demonstrated value-accretive returns on incremental capital expenditure.

We recently carried out refurbishment of our property at Malleswaram, Bengaluru. The property was initially leased on February 01, 2017 and the lease was renewed on December 04, 2023. Refurbishment work was carried out between December 2023 and March 2024. The project work included refurbishment of all rooms including guest bedrooms rooms and bathrooms, restaurant along with reception and lobby. All amenities were upgraded (mattresses, linen, cutlery etc). Total expenses incurred on refurbishment cost amount to ₹ 108.24 Lakhs. Post refurbishment, the property was rebranded as “Grand Continent: A Sarovar portico Affiliate hotel”. ARR increased from sub ₹ 2,000/- to a range of ₹ 3,200/-.

Operational efficiencies and cost management

We effectively manage operating costs and drive synergies through central procurement tendering exercises and cluster purchase programs with our panel of suppliers, which are led by our asset management team. We benefit from favorable supplier rates in several areas, ranging from development and renovation costs to consumables such as food and beverages. In certain cases, we renegotiate supplier rates with our vendors on an annual basis.

4. Professional and experienced management team

Our business is led by a professional management team and Board of Directors, who come from diverse backgrounds with expertise in various fields such as private equity and investments, real estate and hospitality. We benefit from the industry experience, guidance and the vision of our Promoter, Mr. Ramesh Siva, who is also our Chairman and Managing Director and has more than two decades of experience in the hotel and hospitality industry. He has demonstrated ability to manage and grow operations organically and also by acquiring and integrating hotels. We also have a strong management team with significant industry experience and domain knowledge leading key aspects of our business.

5. Well-positioned to benefit from strong industry tailwinds

India has emerged as the fastest-growing major economy in the world with nominal GDP growth rate of 10.4% expected in 2024, backed by its robust democracy and strong partnerships. The trajectory of economic growth of India and private consumption is driven by socio-economic factors such as demographics and urbanization. With a median age of 29, India boasts one of the youngest populations globally. Each year, a substantial number of young citizens enter the workforce, contributing to the potential for a significant ‘demographic dividend’. A large working population also brings enhanced discretionary spending power and a greater inclination to travel, which could benefit the mid-scale hotel sector. Business and downtown hotels, as well as leisure hotels, can be expected to grow by offering a balance of quality services and value that aligns with this demographic’s travel needs and preferences.

“By 2036, India’s towns and cities will be home to 600 million people, or 40% of the population, up from 31% in 2011, with urban areas contributing almost 70% to GDP.” The urban population is significantly growing in India. It is estimated

to have increased from 403 million (31.6% of total population) in 2012 to 508 million (35.9% of total population) in the year 2022. Urbanization creates the need for jobs, thereby attracting investment and development of multiple business sectors, including manufacturing and services. Growth in business and business opportunities due to increased urban-led activity is evidenced by increase in air traffic, wider real estate activity, and growth of hotels in several existing and newer markets in metro cities, primary and secondary cities and towns.

India proudly boasts a tapestry of geographical diversity, encompassing awe-inspiring world heritage sites and niche tourism offerings such as captivating cruise tourism, exhilarating adventure tourism, renowned medical tourism, and mesmerizing eco-tourism. These unique offerings have resulted in an exponential increase in tourist arrivals, opening up vast employment opportunities. The country, with a rich cultural and historical heritage, diversity in ecology, terrains, and myriad attractions, is one of the most popular holiday destinations worldwide, which has resulted in the rise of the Indian tourism and hospitality industry among all the services sectors in the country. A 2022 ICICI Direct survey highlighted this, noting Varanasi's remarkable 720 lakh tourists, which significantly surpassed Goa's 85 lakh visitors. According to the Ministry of Tourism, these religious hubs contributed approximately ₹1.3 lakh crore in revenue and attracted around 1.43 billion visitors in 2022. Contrary to the belief that spiritual tourism primarily appeals to older generations, this trend spans across age groups. Beyond the well-known destinations, lesser-explored cities are also seeing an increase in spiritual and religious tourism, driven by government initiatives.

As an initiative under India's G20 Presidency, the Ministry of Tourism, Government of India organized the country's first Global Tourism Investors' Summit (GTIS) to showcase opportunities for investment and trade while fostering tourism and development nationwide. The Swadesh Darshan scheme by the Ministry of Tourism aims to develop a comprehensive framework for the holistic development of tourist destinations. With an outlay of INR 1,750 Cr for FY 2024- 25 in the Union Budget 2024-25, the scheme is designed to promote responsible and sustainable tourism practices nationwide through collaborative efforts with the state governments, Union Territory authorities, and local governments. Swadesh Darshan 2.0 is the evolution of the existing flagship scheme, Swadesh Darshan, by the Ministry of Tourism to foster the spirit of Aatmanirbhar Bharat and promote the country as a prominent tourism destination. The scheme envisions developing sustainable and responsible tourism destinations with a focus on self-employment, youth skilling, private sector investments, and local culture.

Business travel remains a predominant source of demand for hotels located primarily in business-oriented locations such as Bengaluru Whitefield, Hinjewadi Pune, Gurugram, and Cyberabad in Hyderabad. India's economic growth, coupled with the rising number of small and medium sized enterprises (SMEs) and startups, has led to an uptick in business travel. (Source: Ken Research)

OUR GROWTH STRATEGIES

1. Developing and expanding our hospitality assets

We plan to consolidate our hotel properties across Southern India to strengthen our presence in this region. At the same time, we are actively pursuing expansion opportunities in Northern and Western India, focusing on major business hubs and popular leisure destinations. Our goal is to identify and secure key properties in prime locations, which will enhance our market presence and cater to a broader customer base. We are also open to exploring opportunities in Central and Eastern India to ensure a well-rounded geographical footprint.

Our expansion strategy is ambitious, with a target of doubling our capacity every year for the next 5 years. This aggressive growth plan will position us as a resilient player in the domestic hospitality industry. As part of our long-term vision, we are also planning to expand into key international business hubs, allowing us to better serve our business customers on a global scale. This international expansion will enable us to tap into new markets, diversify our offerings, and further solidify our brand's presence worldwide.

2. Improving operational efficiency to achieve superior performance.

We seek to improve our operational efficiencies by implementing holistic asset management plans for our hotels. These include rationalizing sourcing costs, effective workforce management using technology to enhance productivity and drive occupancy and efficient energy management. For instance, on technology front, the company intends to undertake the following projects (a) Back-end process being integrated on cloud based SAAS platform for accounting, procurement, HR etc (b) Planning for a full-blown cloud based SAAS HMS to enable revenue management, reservation management, loyalty management.

The company will look to outsource functions that cannot be undertaken internally in a cost-effective manner and judiciously managing our use of electricity, fuel, water and other utilities.

We also plan to improve staff productivity and efficiency to reduce payroll costs per room through the use of new technology, streamlined management systems, comprehensive training and performance-linked compensation. We are now planning to increase hospitality experience through retention, upskilling, improving employee experience, implementation of performance linked incentives etc. We have achieved best possible Key: People ratio over past three financial years and stub period ended on September 30, 2024, details of which are as follows:

Fiscal	Staff linked to operations*	Keys*	Ratio
2021-2022	58	192	0.3
2022-2023	71	329	0.2
2023-2024	231	531	0.4
September 30, 2024	502	753	0.7

* No. of Employees and Operation Key data taken on last day of the year/period

3. Optimise capital efficiency through the adoption of our asset light model with an optimal portfolio of owned and leased hotels and to further strengthen, develop and expand our existing brand.

We have developed an expertise of managing and operating hotels for over the last 13 years. As of September 30, 2024, we have 16 operational hotels with 753 rooms. We have signed MOUs/LOI for another 5 properties in the upper mid-priced and mid-priced categories, adding about 346 rooms to our hotel portfolio.

We will continue to focus on building an asset light business with majority of assets under leased, or licensed and managed hotels and will seek to expand opportunistically based on overall opportunities. According to KEN Research, hotels in mid-scale category are expected to grow at a CAGR of 9% (revenue growth) and 5% (volume growth) between Fiscal 2023 to Fiscal 2029. Mid-Scale Hotels (Mid-priced and Upper Mid-priced together) constitute approximately 56.0% of the total room supply, signifying their dominance in catering to a broad spectrum of business and leisure travellers.

We typically enter into yearly agreements with our suppliers for F&B-related and room related consumables, most of which are located in India. We have well established relationships with our suppliers, which provides consistent quality and price and tenure-based rate contracts with many of these supply partners.

While there are many supplies that have variable pricing within the Fiscal (cooking fuels fruits/vegetables), Our Company has in the past ensured that such price variations are budgeted and has not passed on indiscriminate cost escalations to its' guests. However, to the extent possible and subject to prevailing market conditions, any increase in the prices of goods and services supplied will be passed on to our customers. For example, an increase in F&B commodity prices may result in an increase in prices of our F&B offerings. We are not dependent on any particular supplier, and for the Six months period ended September 30, 2024, no single supplier contributed to more than 5.00% of our total expenses and our top 10 suppliers did not contribute to more than 50% of our total expenses.

COMPETITION

The hospitality industry in India is intensely competitive and we compete with large multinational and Indian companies in each of the regions in which we operate. Our hotels are in mid-scale hotel sector in India, consisting of the upper-mid priced, mid-priced and economy hotel segments. We generally experience competition from chain-affiliated hotels in the mid-scale hotel industry sector, as well as certain hotels in the upper upscale and upscale sectors. Our success is largely dependent upon our ability to compete in areas such as room rates, location of the property, brand recognition, quality of accommodation, service levels and the quality and scope of other amenities, including F&B facilities. For details of certain of our financials or

operational metrics as compared with our peers, according to the Ken Research, refer section titled “*Our Industry*”, on page 141 of this Prospectus.

Also, refer section titled “*Risk Factors- India’s mid-scale hotel market is highly competitive and our inability to compete effectively may adversely affect our business, results of operations, cash flows and financial condition*” on page 37 of this Prospectus.

INDUSTRY-SPECIFIC LEGISLATIONS APPLICABLE TO OUR COMPANY

The Food Safety and Standards Act, 2006 (“FSS Act”)

The FSS Act consolidates laws relating to food and establishes the Food Safety and Standards Authority of India (“FSSAI”), which lays down science-based standards for food articles and regulates their manufacture, storage, distribution, sale and import, to ensure availability of safe and wholesome food for human consumption. The standards prescribed by the FSSAI also include specifications for food activities, flavourings, processing aids and material in contact with food, ingredients, contaminants, pesticide residue, biological hazards and labels. The FSS Act also sets out, among other things, the requirements for licensing and registration of food businesses, general principles of food safety and responsibilities of a food business operator and liability of manufacturers and sellers. The FSS Act also lays out procedure for adjudication by the Food Safety Appellate Tribunal.

Further, the Food Safety and Standards Rules, 2011 (“FSS Rules”) lay down detailed standards for various food products, which include, among others, specifications for ingredients, limit of quantities of contaminants, tolerance limits of pesticide drugs residue, biological hazards and labels.

For enforcement under the FSS Act, the ‘commissioner of food safety’, ‘food safety officer’, and ‘food analyst’ have been granted detailed powers of seizure, sampling, taking extracts, and analysis under the FSS Rules.

Hotel Classification Guidelines

With the aim to provide contemporary standards of facilities and services available in the hotels, the Ministry of Tourism, Government of India (“**Tourism Ministry**”) has issued guidelines dated January 19, 2018, for approving hotel related projects and their classification/re-classification. Pursuant to these guidelines, all hotel related projects are to be approved at implementation stage and classification for newly operational hotels, if approved by Tourism Ministry at project stage, must be sought within three months of commencing of the operations. Operating hotels may opt for such classification at any stage, however hotels seeking re-classification should apply for the same and complete the process at least six months prior to the expiry of the existing period of classification.

The guidelines prescribe constitution of Hotel and Restaurant Approval and Classification Committee (“**HRACC**”), which are required to inspect and assess the hotels based on the facilities and services offered by them and their compliance with the prescribed standards under the said guidelines. Basis the assessment by HRACC, the hotels can be classified either under ‘Star Category’ or ‘Heritage Category’, if such hotels apply for classification and are found fit for classification. Such classification shall be valid for a period of five years. ‘Star Category’ hotels include the following sub-categories: 5 Star Deluxe, 5 Star (with or without alcohol services), 4 Star (with or without alcohol services), 3 Star, 2 Star and 1 Star hotel.

Pursuant to the Tourism Ministry’s guidelines for classification of heritage hotels, hotels running in palaces, castles, forts, havelies, hunting lodges or residences which were built prior to the year 1950 can seek classification in a heritage category. The classification into the sub-categories, Heritage, Heritage Classic or Heritage Grand, is based on the features and amenities of the hotel, including number of rooms, conformity of the general features and ambience to the overall concept of heritage and architectural distinctiveness, availability of sporting facilities, type of cuisine offered, quality of service and years of

experience of the owner/staff. The Tourism Ministry has also issued separate guidelines for approval and classification/reclassification of other types of hotels.

PROPERTY LAWS

Transfer of Property Act, 1882

The Transfer of Property Act, 1882 was intended to define and amend the existing laws and not to introduce any new principle. It applies only to voluntary transfers. The Transfer of Property Act, 1882 provides a clear, systematic and uniform law for the transfer of immovable property. Transfer of property means an act by which a person conveys the property to one or more persons, or himself and one or more other persons. The act of transfer may be done in the present or for the future. The person may include an individual, company or association or body of individuals, and any kind of property may be transferred, including the transfer of immovable property. Transfer of property is subject to stamping and registration under the specific statutes enacted for the purposes which have been dealt with hereinafter. The Transfer of Property Act, 1882 recognizes, among others, the following forms in which an interest in an immovable property may be transferred:

Sale	The transfer of ownership in property for a price, paid or promised to be paid.
Mortgage	The transfer of an interest in property for the purpose of securing the payment of a loan, existing or future debt, or performance of an engagement which gives rise to a pecuniary liability. The Property Act recognizes several forms of mortgages over a property.

Charges	Transactions including the creation of security over property for payment of money to another which are not classifiable as a mortgage. Charges can be created either by operation of law, e.g. decree of the court attaching to specified immovable property, or by an act of the parties.
Leases	The transfer of a right to enjoy property for consideration paid or rendered periodically or on specified occasions.
Leave and License	The transfer of a right to do something upon immovable property without creating interest in the property. Further, it may be noted that with regards to the transfer of any interest in a property, the transferor transfers such interest, including any incidents, in the property which he is capable of passing and under the law, he cannot transfer a better title than he himself possesses.

Registration Act, 1908

The Registration Act, 1908 has been enacted with the objective of providing public notice of the execution of documents affecting, inter alia, the transfer of interest in immovable property. The purpose of the Registration Act, 1908 is the conservation of evidence, assurances, title and publication of documents and prevention of fraud. It details the formalities for registering an instrument. Section 17 of the Registration Act, 1908 identifies documents for which registration is compulsory and includes, among other things, any non-testamentary instrument which purports or operates to create, declare, assign, limit or extinguish, whether in present or in future, any right, title or interest, whether vested or contingent, in any immovable property of the value of one hundred rupees or more, and a lease of immovable property for any term exceeding one year or reserving a yearly rent. A document will not affect the property comprised in it, nor be treated as evidence of any transaction affecting such property (except as evidence of a contract in a suit for specific performance or as evidence of part performance under the Property Act or as collateral), unless it has been registered. Evidence of registration is normally available through an inspection of the relevant land records, which usually contains details of the registered property. Further, registration of a document does not guarantee title of land.

Legislations pertaining to Stamp Duty

Stamp duty in relation to certain specified categories of instruments as specified under Entry 91 of the list, is governed by the provisions of the Indian Stamp Act, 1899 ("Stamp Act") which is enacted by the Central Government. All others instruments are required to be stamped, as per the rates prescribed by the respective State Governments in the respective schedules of the respective legislations pertaining to stamp duty as applicable in the State. Stamp duty is required to be paid on all the documents that are registered and as stated above the percentage of stamp duty payable varies from one State to another. Certain State in India have enacted their own legislation in relation to stamp duty while the other State have adopted and amended the Stamp Act, as per the rates applicable in the State. On such instruments stamp duty is payable at the rates specified in Schedule I of the Stamp Act. Instruments chargeable to duty under the Stamp Act which are not duly stamped are incapable of being admitted in court as evidence of the transaction contained therein. The Stamp Act also provides for impounding of instruments which are not sufficiently stamped or not stamped at all. Unstamped and deficiently stamped instruments can be impounded by the authority and validated by payment of penalty. The amount of penalty payable on such instruments may vary from State to State.

INTELLECTUAL PROPERTY LEGISLATIONS

Certain laws relating to intellectual property rights such as copyright protection under the Copyright Act, 1957 and trademark protection under the Trade Marks Act, 1999 are also applicable to us. The Copyright Act, 1957 (the "Copyright Act") governs copyright protection in India. It specifies that for the purposes of public performance of Indian or international music a public performance license must be obtained else it will invite criminal action. All those who play pre-recorded music in the form of gramophone records, music cassettes or compact discs in public places have to obtain permission for sound recordings. Even while copyright registration is not a prerequisite for acquiring or enforcing a copyright in an otherwise copyrightable work, registration under the Copyright Act acts as prima facie evidence of the particulars entered therein and helps expedite infringement proceedings and reduce delay caused due to evidentiary considerations. The Trade Marks Act, 1999 (the "Trade Marks Act") provides for the process for making an application and obtaining registration of trademarks in India. The purpose of the Trade Marks Act is to grant exclusive rights to marks such as a brand, label and heading, and to obtain relief in case of infringement. The Trademarks Act prohibits registration of deceptively similar trademarks and provides for penalties for infringement, falsifying and falsely applying trademarks

Specific Relief Act, 1963

The Specific Relief Act, 1963 is complimentary to the provisions of the Indian Contract Act, 1872 and the Transfer of Property Act, 1882, as the act applies both to movable property and immovable property. The act applies in cases where the court can order specific performance of a contract. Specific relief can be granted only for purpose of enforcing individual civil rights and not for the mere purpose of enforcing a civil law. 2.3 Use of estimates:

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the reported amount of revenue and expenses. Although such estimates and assumptions are made on reasonable and prudent basis taking into account all available information, actual results could differ from these estimates and assumptions and such differences are recognized in the period in which the results are crystallized. Any revision to accounting estimates is recognized in the current and future periods.

2.4 Going concern:

The cash flows from operating, investing and financing activities of the Group are segregated based on the available information.

2.7 Revenue Recognition:

Property plant and equipment owned and operated by the Group are reported at cost, less accumulated depreciation and/or impairment losses, if any. Cost includes its purchase price including non-refundable taxes or levies and any attributable costs of bringing the asset to its working condition for its intended use.

Subsequent expenditure related to an item of tangible asset are added to its book value only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance.

Property, plant and equipment is eliminated from the restated consolidated financial statements on disposal or when no further economic benefit is expected from its use and disposal.

Gains or losses arising from disposal/retirement of property, plant and equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of profit and loss.

(ii) Depreciation :

Depreciation on property, plant and equipment is calculated on a straight-line basis as per the useful lives prescribed under Schedule II of the Companies Act, 2013 or as per the useful lives estimated by the management except for leasehold improvements which are depreciated over the term of lease.

(iii) Derecognition:

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on derecognition of an item of property, plant and equipment is measured as the difference between the net disposal proceeds and the carrying amount of the item and is recognised in the restated consolidated statement of profit or loss in the year the asset is derecognised.

2.9 Inventories Valuation :

(i) Stores and operating supplies:

Lower of cost and net realisable value. Cost is determined on first in first out basis and includes all applicable costs in bringing goods to their present location and condition.

Net realisable value is the estimated contract price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to complete the contract.

3 Investments

On initial recognition, all investments are measured at cost. Cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties.

Investments that are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments.

Current investments are carried in the restated consolidated financial statements at lower of cost and fair value determined on an individual investment basis.

Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged to the Statement of profit and loss.

Provision for diminution in value is made to recognise a decline other than temporary in the value of investments. No such provision has been made during the year.

2.10 Leases

(i) Operating lease

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor are recognised as operating leases. Lease rentals under operating leases are recognised in the Statement of profit and loss as per the arrangement with the lessor over the lease term.

(ii) Finance lease

Assets taken on finance lease are capitalised at an amount equal to the fair value of the leased assets or the present value of minimum lease payments at the inception of the lease, whichever is lower. Such leased assets are depreciated over the lease tenure or the useful life, whichever is shorter. The lease payment is apportioned between the finance charges and reduction to principal, i.e., outstanding liability. The finance charge is allocated to the periods over the lease tenure to produce a constant periodic rate of interest on the remaining liability. The Group has taken no assets on finance lease.

2.11 Cash and cash equivalents

Cash comprises of cash in hand, cheques on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

2.12 Earnings per share (EPS)

The Basic EPS is computed by dividing the net profit / (loss) attributable to the equity shareholders for the year by the weighted average number of equity shares outstanding during the reporting period.

Diluted EPS is computed by dividing the net profit / (loss) as adjusted for dividend, interest and other charges to expense or income (net off any attributable taxes) relating to the dilutive potential equity shares by the weighted average number of equity and dilutive equity equivalent shares outstanding during the year, except where the results would be anti-dilutive.

2.13 Employee Benefits

(i) Short-term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. These benefits include compensated absences for paid annual leave. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is charged during the year to the Statement of profit and loss.

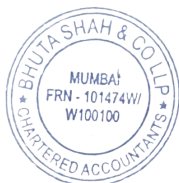

(ii) Long-term employee benefits

The Group makes contributions, determined as a specified percentage of employee salaries, in respect of qualifying employees towards Provident Fund, which is a defined contribution plan. The Group has no obligations other than to make the specified contributions. The contributions are charged to the Statement of profit and loss for the year, as applicable.

Gratuity: Gratuity liability for eligible employees are defined benefit obligation and are provided for on the basis of an actuarial valuation on projected unit credit method made at the end of each financial year. Obligation is measured at the present value of estimated future cash flows using discounted rate that is determined by reference to market yields at the balance sheet date on Government Securities where the currency and terms of the Government Securities are consistent with the currency and estimated terms of the defined benefit obligation.

Compensated absences

As per the leave encashment policy of the Group, the employees have to utilise their eligible leave during the financial year and lapses at the end of the financial year.

2.14 Taxes on income

(i) Current tax

Current tax is the amount of tax payable on the taxable income for the year/period as determined in accordance with the applicable tax rates and the provisions of the Income Tax Act, 1961 and other applicable laws. The Group's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

The Company has opted for Section 115BAA of the Income Tax Act, 1961 and accordingly has not considered MAT Credit available for the purpose of payment of current taxes.

(ii) Deferred tax

Deferred tax is recognised on timing differences, being the differences between the taxable and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted as at the reporting date. Deferred tax liabilities are recognised for all timing differences. Deferred tax assets are recognised for timing differences of items other than carry forward losses only to the extent that virtual certainty supported by convincing evidence exists that sufficient future taxable income will be available against which these can be realised. Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Group has a legally enforceable right for such set off. Deferred tax assets are reviewed at each balance sheet date for their realisability.

2.15 Borrowing costs

Borrowing costs, general or specific, that are directly attributable to the acquisition or construction of qualifying assets is capitalized as part of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for intended use. All other borrowing costs are charged to the Statement of Profit and Loss.

The Company determines the amount of borrowing costs eligible for capitalization as the actual borrowing costs incurred on that borrowing during the year less any interest income earned on temporary investment of specific borrowings pending their expenditure on qualifying assets, to the extent that an entity borrows funds specifically for the purpose of obtaining a qualifying asset. In case if the Company borrows generally and uses the funds for obtaining a qualifying asset, borrowing costs eligible for capitalization are determined by applying a capitalization rate to the expenditures on that asset.

Borrowing costs includes interest incurred in connection with the arrangement of borrowings.

2.16 Impairment of Assets

The Group assesses at each balance sheet date whether there is any indication that an asset may be impaired. If any such indication exists, the Group estimates the recoverable amount of the asset. The recoverable amount is the greater of the net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value based on an appropriate discount factor. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the Profit and Loss Statement. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciable historical cost.

2.17 Provision, Contingent Liabilities and Contingent Assets:

Provisions are recognised when the Group has a present obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present values and are determined based on the best estimate required to settle the obligations at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates.

Contingent liabilities are not recognised in the restated consolidated financial statements and are disclosed in the notes forming part of the financial statements.

Contingent assets are neither recognised nor disclosed in the restated consolidated financial statements.

In cases where the location is favourable and guest experience is positive, this period can shorten to 6 - 12 months. Excluding properties with less than 6 months of operations, our adjusted occupancy is 72.33% for Six months period ended September 30, 2024, 75.17% for FY 2024, 79.00% for FY 2023 and 61.90% for FY 2022.

We believe that we are well-positioned to benefit from growing hospitality demand fuelled by several key factors such as the robust increase in domestic tourism; the growing middle class, alongside their evolving lifestyles; a significant uptick in business travel, particularly from small and medium-sized enterprises (SMEs); and the broadening scope of business activities into Tier 2, 3, and 4 cities. The Foreign Tourist Arrivals (FTAs) in India continued to grow from 2.54 million in 2001, 6.31 million in 2011 to reach 10.93 million in year 2019. Subsequently, after opening of the economy post COVID -19 Pandemic, tourism has shown increasing signs of revival. In year 2022, India registered 6.44 million FTAs i.e. attained around 60% of pre-pandemic level with a growth of 323.7% over 2021. In 2023, 9.23 million foreign tourists visited India. Although the FTAs arrival tally still remains less than the pre-pandemic number of 10.93 million in 2019, 2024 numbers are expected to surpass it. Domestic tourist visits have grown substantially post pandemic, fuelled by rising disposable incomes, an expanding middle class, and a shift in lifestyle choices that prioritize travel and leisure. Additionally, better road networks, improved rail and air connectivity, and the expansion of affordable accommodation options have made travel more accessible to a wider audience. The top 5 states in domestic tourist visits in 2022 were Uttar Pradesh (317.9 Mn), Tamil Nadu (218.6 Mn), Andhra Pradesh (192.8 Mn), Karnataka (182.4 Mn) and Gujarat (135.8 Mn) with their respective shares being 18.4%, 12.6%, 11.1%, 10.5% and 7.8%. These 5 States accounted for about 60.5% of the total domestic tourist visits in the country (*Source: Ken Research*).

Significant Factors Affecting our Results of Operations

Increasing Competition with Highly Fragmented Market

The mid-scale hotel sector in India is characterized by increasing competition amid a highly fragmented landscape. Almost every city features a mix of numerous branded and unbranded hotels, including both family-owned establishments and larger chains. Historically, the supply of branded hotels was concentrated in the luxury and premium segments, driven primarily by foreign tourism. However, the significant rise in domestic tourism has prompted many hotel brands to venture into the mid-range market, intensifying competition within this segment.

The presence of well-established properties complicates the competitive environment, as customers now have an abundance of options at their disposal. This saturation diminishes pricing power for hotels, forcing them to compete aggressively on rates and amenities. The proliferation of online hotel aggregators has further intensified this trend, allowing customers to easily compare prices and availability across various properties, which in turn drives down rates and increases pressure on margins. Capital-intensive Industry with Long Gestation Period

The mid-scale hotel industry in India faces significant challenges due to its capital-intensive nature and extended gestation periods of 5-10 years. Prime hotel locations often command high land prices, elevating initial investment requirements. Additionally, constructing a hotel involves substantial costs related to safety measures, high-quality building standards, and aesthetically pleasing interiors and furnishings.

Owners must allocate considerable resources, both finances and time, before realizing any returns. The need for substantial working capital is further compounded by the cyclical and seasonal nature of the hospitality business. While peak seasons can generate substantial revenue, off-peak periods can lead to underutilization, resulting in financial strain as operational costs persist year-round. This creates an ongoing challenge for hoteliers in managing liquidity and ensuring sustainability. (Source: KEN Research Report)

Shortage of Skilled Labor

Most branded hotels in India today are severely underpowered. The current shortfall in the branded hotels space is 80,000-100,000 people. These hotels require 1.2-1.5 million people every year and this requirement is growing at a CAGR of 5.5-5.6%¹⁵. This shortage hampers operational efficiency, impacts service quality, and constrains growth potential, posing a critical challenge for maintaining competitive standards and meeting increasing market demands.

Fluctuations in Demand

The India mid-scale hotel market faces significant challenges due to fluctuations in demand. The peak season, from October to April, benefits from high activity such as weddings, but July to September see a marked slowdown. This reliance on seasonal variations affects occupancy rates and RevPAR, leading to slower growth during off-peak months. Additionally, the market is vulnerable to economic fluctuations and external factors like political instability or pandemics, further complicating revenue stability and forecasting.

Consumer Price Sensitivity

Price sensitivity among consumers has become a significant challenge in the mid-scale hotel sector. With a growing number of budget-conscious travelers and increased price comparison tools, guests are more focused on finding the best value for their money. Chains with well-established brands might leverage their scale to offer competitive pricing or value-added services without compromising profitability. In contrast, independent hotels, which may lack the same scale efficiencies, face greater pressure to adjust pricing strategies and offer compelling value propositions to attract price-sensitive customers.

Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted as at the reporting date. Deferred tax liabilities are recognised for all timing differences. Deferred tax assets are recognised for timing differences of items other than carry forward losses only to the extent that virtual certainty supported by convincing evidence exists that sufficient future taxable income will be available against which these can be realised. Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Group has a legally

enforceable right for such set off. Deferred tax assets are reviewed at each balance sheet date for their realisability.

Borrowing costs: Borrowing costs, general or specific, that are directly attributable to the acquisition or construction of qualifying assets is capitalized as part of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for intended use. All other borrowing costs are charged to the Statement of Profit and Loss.

The Company determines the amount of borrowing costs eligible for capitalization as the actual borrowing costs incurred on that borrowing during the year less any interest income earned on temporary investment of specific borrowings pending their expenditure on qualifying assets, to the extent that an entity borrows funds specifically for the purpose of obtaining a qualifying asset. In case if the Company borrows generally and uses the funds for obtaining a qualifying asset, borrowing costs eligible for capitalization are determined by applying a capitalization rate to the expenditures on that asset.

Borrowing costs includes interest incurred in connection with the arrangement of borrowings.

Impairment of Assets: The Group assesses at each balance sheet date whether there is any indication that an asset may be impaired. If any such indication exists, the Group estimates the recoverable amount of the asset. The recoverable amount is the greater of the net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value based on an appropriate discount factor. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the Profit and Loss Statement. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed, and the asset is reflected at the recoverable amount subject to a maximum of depreciable historical cost.

Provision, Contingent Liabilities and Contingent Assets: Provisions are recognised when the Group has a present obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present values and are determined based on the best estimate required to settle the obligations at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates.

Contingent liabilities are not recognised in the restated consolidated financial statements and are disclosed in the notes forming part of the financial statements.

Contingent assets are neither recognised nor disclosed in the restated consolidated financial statements.

Financial Year 2024 compared to Financial Year 2023

Revenue from operations:

Revenue from operations increased by 85.92% from ₹1,680.15 Lakhs in the year 2022-23 to ₹3,123.69 Lakhs in the year 2023-24.

The increase in revenue can be attributed to two primary factors:

A. Revenue Contribution from New Units and Upscaling Market Position: A significant driver of revenue growth this year was the strategic opening of new units, which not only expanded the company's footprint but also enhanced its market positioning through higher Average Room Rates (ARR). These new units were designed to attract premium clientele, offering enhanced facilities and services that allowed the company to charge higher rates, thus elevating the brand's standing in the market.

Tirupati, which was operational for the full year, contributed ₹ 501 lakhs, as compared to just 15 days the previous year, made a substantial contribution to revenue. Similarly, a small 25 room unit in Koramangala (K25), operational for 11 months, contributed ₹222 lakhs, provided a steady revenue stream.

However, the real impact came from the introduction of units with notably higher ARR, reflecting the company's strategic move towards premium offerings. **Hosur**, operational for 5 months, contributed ₹139 lakhs, achieved an impressive ARR exceeding 3250, while **Manyata**, with 3 months of operations, contributed ₹59 lakhs, recorded an even higher ARR of over 5237. Even shorter operational periods, like **Secunderabad** (2 months) ₹14 lakhs and **Anjuna** (1 month) ₹17 lakhs, played their part in enhancing revenue, showing the strength of the company's new openings.

These new units contributed not only to revenue growth but also repositioned the company in the market, upscaling its brand through premium offerings, thus securing a stronger competitive advantage.

B. Improved Utilization and Higher Average Room Rates (ARR) in Existing Units: In addition to the revenue from new units, the performance of existing units improved significantly. The company achieved a peak utilization rate, with the average occupancy decreased from 73.92% in 2023 to 71.95% in 2024, indicating more efficient use of capacity.

Additionally, the Average Room Rate (ARR) across existing units increased by approximately 10%, moving from 2652.41 in 2023 to 3403.45 in 2024. This higher ARR, combined with the improved occupancy, contributed to a substantial increase in revenue from the existing portfolio. Overall better contribution to the revenue by ₹489 Lakhs.

Conclusion: The combination of new units driving high revenue with elevated ARR and improved performance from existing units has led to significant revenue growth for the company. This growth is not just a reflection of increased capacity but also of the company's strategic shift towards premium offerings, enhancing its positioning in the market and setting the stage for continued success.

Employee Benefit Expenses:

Employee benefit expenses increased by 104.20% from ₹268.30 Lakh in the year 2022-23 to ₹547.85 Lakh in the year 2023-24. The increase in Employee Benefit Expenses can be attributed to two primary factors:

A. Salaries for Existing Units: The growth in salary expenses was significantly driven by the need to support peak demand at each of the existing units, to ₹291 lakhs in FY24 from ₹268 lakhs in FY23. As the company experienced higher activity levels, particularly during busy periods, there was a corresponding increase in staffing requirements. To meet the demands of increased operational capacity and ensure high service standards, salaries for existing employees were adjusted upward. This adjustment not only supported the operational needs during peak times but also helped maintain the quality of service, which is crucial for sustaining customer satisfaction and loyalty.

B. Salaries for New Units: In addition to the adjustments made for existing units, the opening of new units contributed to the rise in overall salary expenses, approximately ₹255 lakhs. Each new unit required a full complement of staff to manage operations effectively from the outset. The costs associated with hiring and training new employees, as well as the initial salaries paid to them, were significant. These expenses reflect the company's investment in building a capable workforce to support its expanded operations and ensure smooth integration of new units into the existing business structure.

Summary: Overall, the increase in salary expenses was driven by both the need to enhance support at existing units during peak demand and the additional staffing requirements for newly opened units. This strategic investment in human resources was essential for accommodating higher operational demands and supporting the company's growth initiatives.

Depreciation and Amortization expense:

Depreciation and amortization expense increased by 3.64% from ₹107.22 Lakh in 2022-23 to ₹111.12 Lakh in 2023-24.

The increase in depreciation during the year was influenced by two key factors:

Existing Units: Depreciation for existing units was lower in the current year (CY) compared to the previous year (PY), as certain assets reached later stages of their depreciation cycles.

New Units: While several new units were added, most of them were operational for less than 180 days, leading to a limited impact on overall depreciation expenses for the year.

As a result, the overall change in depreciation expense was insignificant. When viewed in relation to revenue growth, the depreciation expense as a percentage of revenue has actually decreased, reflecting improved operational efficiency.

Finance Costs:

Finance Costs increased by 0.01% from ₹352.61 Lakh in 2022-23 to ₹352.63 Lakh in 2023-24.

Despite a significant increase in revenues, there was no notable change in the company's finance cost during the current financial year. The reasons for this stability in finance costs are as follows:

Negligible Increase in Finance Cost: While the company did secure an additional loan of ₹5.75 crore during the period, the impact on finance costs was minimal. This is primarily because the loan was disbursed towards the end of the financial year, resulting in only a limited increase in interest expense for the current period.

Stable Finance Costs Relative to Revenue: With the company experiencing strong revenue growth, the stable finance costs led to a reduction in finance costs as a percentage of total income. This demonstrates efficient financial management, as the company was able to expand operations without a proportional rise in borrowing costs.

Growth Funded Primarily by Equity: The significant expansion through new units in the year was primarily funded by equity rather than debt. By leveraging equity funding, the company managed to avoid a heavy reliance on borrowing, thereby keeping finance costs under control. This strategic approach allowed the company to grow its asset base without incurring significant additional interest expenses, reinforcing its solid financial position.

In summary, the minimal increase in finance costs, despite a rise in revenues and the expansion of new units, reflects prudent financial management. With most of the growth funded by equity, the company maintained its low finance costs as a percentage of total income, contributing to its improved overall financial performance.

Other Expenses:

Other expenses increased by 102.07% from ₹786.54 Lakh in 2022-23 to ₹1,589.36 Lakh in 2023-24

Other Expenses as per the Financial Statements are direct expenses related to the revenue and indirect expenses for general corporate purposes. All expenses can be further classified as

Fixed and Variable Expense: The company's expense structure during the year can be broadly categorized into two types: fixed expenses, such as lease rentals and electricity costs, and variable expenses, such as commissions and franchise fees, which fluctuate in line with revenue performance.

The increase in other expenses during the year was influenced by two key factors:

Fixed Expenses: Fixed expenses, which include lease rentals and electricity costs, remained relatively consistent throughout the year. Lease rental agreements are long-term contracts, due to opening of multiple new lease properties the cost went up by ₹350 lakhs. While electricity expenses were subject to only modest increases in existing units. The change in electricity expenses, approx. ₹78 lakhs, was due to new units i.e. change in operational capacity. These expenses do not vary significantly with changes in revenue and are necessary to maintain the company's basic operational infrastructure, providing a stable cost base.

Variable Expenses: In contrast, variable expenses, including commission and franchise fees, are closely linked to the company's revenue performance which had an approximate increase of ₹115 lakhs between two years. As revenue increased during the year, these expenses naturally rose in tandem. Commissions, which are paid to third-party platforms and partners for generating bookings, are calculated as a percentage of sales, while franchise fees are tied to overall revenue figures. which increased proportionally, by ₹ 250 lakhs, reflecting the direct relationship between revenue growth and these types of expenditures. Other minor expenses went up by ₹36 lakhs.

In summary, while fixed expenses remained steady and predictable, variable expenses showed a significant upward trend in response to higher revenues. This dual structure of expenses ensures that while the company benefits from stable operating

costs, it also has the flexibility to accommodate higher variable costs, which are a natural consequence of increased business activity.

Tax Expenses:

Tax expenses increased by 65.21% from ₹85.16 Lakh in 2022-23 to ₹140.70 Lakh in 2023-24. The increase is due to increasing profits in the year.

Profit after tax:

After accounting for taxes and Share of Profit transferred (to) / from minority Interest, the Net Profit is ₹411.50 Lakh in the year 2023-24 compared to ₹104.87 Lakh in the year 2022-23. The increase in the number of revenue contribution from new units, improved utilization, higher average room rate, economies of scale etc. helped us to improve from previous year's performance.

Net cash flows (used in)/ or generated from operating activities

Net cash generated from operating activities for the period ended September 30, 2024 was ₹ 788.47 lakhs and our Profit before tax for that period was ₹ 800.09 lakhs. The difference was primarily attributable to depreciation of ₹ 114.34 lakhs, provision for bad debts of ₹0.12 lakhs, gratuity of ₹4.69 lakhs, finance cost ₹212.51 lakhs and interest income of ₹ (0.42) lakhs, and thereafter adjustment for net changes in working capital of ₹(251. 22) lakhs resulting in net cash generated from operations at ₹ 788.47 lakhs.

In Fiscal 2024, cash generated from operating activities (as seen in the restated consolidated financial statements) was at ₹721.77 Lakhs. Below is an analysis of significant changes:

1. Increased Cash Flow from Operations: The increase in cash flow from operations this year can be attributed primarily to a rise in Profit After Tax (PAT). As PAT reflects the company's profitability, a higher PAT translates into improved cash inflows from core business activities. This positive change indicates that the company's operations generated more cash, enhancing its ability to fund its activities and investments from operational earnings.

2. Impact of Increased Debtors: Despite the overall increase in cash flow from operations, there was a notable impact from the rise in debtors (accounts receivable) within the group. An increase in debtors signifies that a larger portion of revenue is tied up in outstanding invoices, which can delay cash inflows. This means that while the company's profitability improved, the cash available for use was somewhat constrained by the extended collection periods for receivables. In other words, although the company earned more, some of that earnings were not immediately available due to the delayed payments from customers.

3. Timely Payment to Creditors: On the other hand, the company has managed its creditors (accounts payable) efficiently by making payments in a timely manner. This proactive approach in settling obligations helps maintain strong relationships with

suppliers and avoids potential disruptions in the supply chain. Timely payments also reflect well on the company's financial discipline and its commitment to meeting its financial commitments.

4. Stability of Cash Flow from Operations: Overall, cash flow from operations remained stable compared to the previous year. This stability indicates that despite fluctuations in specific areas such as receivables, the core cash-generating capabilities of the business were consistent. The company's ability to maintain stable cash flow from operations underscores effective financial management and operational efficiency.

5. Cash Flow Implications of New Units: As new units commenced operations, there was an initial cash burn associated with their setup and early-stage expenses. It is typical for new units to experience a period of negative cash flow in the initial few months due to upfront costs such as hiring, training, and initial operating expenses. However, these units generally reach breakeven within approximately three months as they ramp up operations and begin to generate sufficient revenue to cover their costs. This pattern of cash flow is a normal part of expanding business operations and reflects the company's strategic investment in growth.

Summary: In summary, the increase in cash flow from operations was driven by higher Profit After Tax, although it was somewhat impacted by increased debtors. The company's stable cash flow from operations and timely payments to creditors demonstrate effective financial management. Additionally, the initial cash burn associated with new units, followed by a typical breakeven period, is a standard part of the expansion process, indicating a strategic approach to growth.

In Fiscal 2023, cash generated from operating activities (as seen in the restated consolidated financial statements) was at ₹75.95 Lakhs. Below is an analysis of significant changes:

1. Shift from Loss to Profit (Change in PAT): In 2022, the company reported a loss of ₹79 lakh, while in 2023, it turned around its financial performance, achieving a profit of ₹1.03 crore. This improvement in Profit After Tax (PAT) was a key driver in enhancing cash flow from operations. The shift from a loss to profitability meant the company generated more internal cash, improving its ability to finance operations and investments without relying heavily on external funding.

2. Impact of Changes in Debtors: Along with the improvement in profitability, changes in working capital—particularly debtors—affected cash flow. In 2023, accounts receivable increased, with a larger portion of sales yet to be collected at year-end. Although this indicates growth in sales, it also means more cash was tied up in unpaid invoices. This delay in collections created short-term pressure on cash flow, as the company had to wait longer to receive payments from customers, despite recording higher revenues.

3. Impact of Creditors: The company managed its creditors efficiently, ensuring timely payments to suppliers and service providers. While this approach maintained strong supplier relationships and supported operational continuity, it also reduced available cash in the short term. Even with the pressures of increasing debtors, the company prioritized honoring its obligations, adding further strain on cash flow from working capital.

4. Cash Flow from Working Capital: The changes in both debtors and creditors significantly influenced cash flow from working capital. While profitability improved, the rise in accounts receivable and the company's disciplined approach to paying off creditors led to a temporary drain on cash. This resulted in a partial offset of the positive cash inflow from higher profits, with more cash tied up in receivables and timely settlements impacting liquidity.

Summary: The improvement from a loss in 2022 to a profit in 2023 significantly boosted cash flow from operations. However, the increase in debtors and timely payments to creditors created a complex dynamic that influenced overall cash flow. Despite higher profitability, working capital adjustments led to short-term pressures on liquidity, with more cash locked in receivables and used for creditor payments.

In Fiscal 2022, cash generated from operating activities (as seen in the restated consolidated financial statements) was at ₹72.77 Lakhs. Below is an analysis of significant changes :- Low revenues of only ₹6 crores, the books of accounts had losses at PAT level. Purely due to better management of working capital, and some benefits of depreciation, the operating cashflow was positive.

Net cash flows (used in)/ generated from investing activities

Net cash used in investing activities was ₹(2,175.32) lakhs in the six months period ended September 30, 2024. In fiscal 2024, Net Cash used in investing activities was ₹1,883.38 Lakhs was predominantly driven by significant capital expenditures related to the development of several new units. These expenditures were incurred prior to the units becoming operational, as part of the company's strategic expansion plan. The funds were allocated toward property acquisition, construction, and pre-opening development, ensuring that each new unit was fully prepared for operations. The major investments included:

- **Tirupati Unit:** Capital expenditure for the Tirupati unit, though it operated for the full year in 2024, was largely incurred in the previous year and in early 2024, covering the final stages of development and setup.
- **K25 Unit:** Investments for K25, operational for 11 months, were made prior to its opening, ensuring the necessary infrastructure, interior work, and equipment were ready for sustained operations.
- **Hosur Unit:** Pre-opening capital expenditure for the Hosur unit was incurred during the early part of 2024, covering construction, furnishing, and essential setup before it began operations 5 months into the year.
- **Manyata Unit:** Significant investments were made prior to the Manyata unit's go-live, which started operations 3 months into the year. These funds covered property development, high-end furnishing, and advanced infrastructure to match the unit's higher Average Room Rate (ARR).
- **Secunderabad Unit:** Pre-operational capital outlays for this unit were incurred for setup, construction, and development prior to its opening, which took place 2 months before year-end.
- **Anjuna Unit:** The company made upfront investments in property development and readiness for the Anjuna unit, which began operating 1 month into the year, reflecting significant pre-opening capital commitments.

These investments, though recorded as capital expenditures before the units began generating revenue, are necessary for the long-term growth and sustainability of the company. The capital outflows reflected in 2024's cash flow statement indicate the company's forward-looking approach, where the financial resources are allocated to ensure that each new unit is ready for smooth and efficient operations upon opening. These expenditures are expected to drive future revenue growth as the new units ramp up their operations and achieve profitability.

In fiscal 2023, Net Cash used in investing activities was ₹ 855.12 Lakhs was primarily driven by capital expenditures associated with new units that went live during the year. These investments were booked well before the units became operational, reflecting the company's strategy of ensuring all necessary infrastructure, property development, and equipment were in place before launching operations. Key capital investments during 2023 included:

- **Tirupati Unit:** Although this unit only became operational for the last 15 days of 2023, significant capital expenditure was incurred earlier in the year. The funds were allocated toward property development, construction, and infrastructure setup, ensuring the unit was ready to open in December.
- **K25 Unit:** Substantial investments were made for K25 in 2023, focusing on pre-operational requirements such as building infrastructure, interior development, and equipment procurement. These expenditures ensured the unit was fully prepared to operate for a portion of the year.

The capital expenditures in 2023, reflected in the company's cash flow from investing activities, were all pre-emptive, booked to ensure that the newly opened units could commence operations efficiently and effectively. These investments, while representing short-term cash outflows, positioned the company for future growth as the new units became operational and began contributing to revenue.

In fiscal 2022, Net Cash used in investing activities was ₹ 73.15 Lakhs which was primarily used for purchasing property plant and equipment's.

Quantitative and Qualitative Analysis of Market Risks

Our business activities expose us to a variety of financial risks, namely, market risk, credit risk and liquidity risk. Our Board of Directors manages our financial risks through internal risk reports which analyze exposure by the magnitude of risk.

Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market price. Market risk comprises two types of risk: currency risk and interest rate risk. Financial instruments affected by market risks include borrowings, lease liabilities, trade payables and other payables, loans, trade receivables and other receivables.

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in

foreign exchange rates. Our exposure to the risk of changes in foreign exchange relate to our operating and financial activities.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Our exposure to the risk of changes in the market interest rates relate primarily to our long-term debt obligations with floating interest rates. We manage our interest rate risk by having a portfolio of fixed and variable rate borrowings.

Liquidity Risk

Liquidity risk refers to the risk that we cannot meet our financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that the funds are available for use as per requirements. We manage liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities. We consistently generate sufficient cash flows from operations to meet our financial obligations as and when they fall due.

Credit Risk

Credit risk is the risk that a customer or counter-party will not meet its obligations under a financial instrument, leading to financial loss. We are exposed to credit risk from investments, trade receivables, cash and cash equivalents, other bank balance, loans and other financial assets. Our credit risk is minimized as our financial assets are carefully allocated to counter parties reflecting the credit worthiness. Credit risk on trade receivables is subject to our established policy, procedures and control relating to customer credit risk management. The credit quality of a customer is assessed, and individual credit limits are defined in accordance with this assessment. Further, our trade receivables are spread over a number of customers with no significant concentration of credit risk. No single customer accounted for 10% or more of the trade receivables in the six month period ended September 30, 2024 and Fiscals 2024, 2023 and 2022.

PHASED IMPLEMENTATION OF UPI AS PER THE UPI CIRCULAR

SEBI has issued circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018, circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019, circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 08, 2019, and circular SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 (collectively the “UPI Circulars”) in relation to streamlining the process of public Offer of equity shares and convertibles. Pursuant to the UPI Circulars, the UPI Mechanism has been introduced in a phased manner as a payment mechanism (in addition to the mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for applications by RIBs through intermediaries with the objective to reduce the time duration from public issue closure to listing from six working days to up to three working days. Considering the time required for making necessary changes to the systems and to ensure a complete and smooth transition to the UPI payment mechanism, the UPI Circular proposes to introduce and implement the UPI payment mechanism in three phases in the following manner:

Phase I: This phase was applicable from January 1, 2019, until March 31, 2019, or floating of five main board public issues, whichever is later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, a Retail Individual had the option to submit the Application Form with any of the intermediaries and use his/her UPI ID for the purpose of blocking funds. The time duration from public issue closure to listing continued to be six working days.

Phase II: This phase has become applicable from July 1, 2019, and was to initially continue for a period of three months or floating of five main board public issues, whichever is later. Subsequently, it was decided to extend the timeline for implementation of Phase II until March 31, 2020. Furthermore, as per SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, the current Phase II of Unified Payments Interface with Application Supported by Blocked Amount is continued till further notice. Under this phase, submission of the ASBA Form by RIBs through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds will be discontinued and will be replaced by the UPI payment mechanism. However, the time duration from public issue closure to listing continues to be six working days during this phase.

Phase III: The commencement period of Phase III is notified pursuant to SEBI press release bearing number 12/2023 and as per the SEBI Circular No. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023, where the revised timeline of T+3 days shall be made applicable in two phases i.e. (i) voluntary for all public issues opening on or after September 1, 2023; and (ii) mandatory on or after December 1, 2023. The Offer will be undertaken pursuant to the processes and procedures as notified in the T+3 Notification under Phase III on a mandatory basis, subject to any circulars, clarification or notification issued by the SEBI from time to time, including any circular, clarification or notification which may be issued by SEBI.

The Offer was made under Phase III of the UPI (on a mandatory basis)

Pursuant to the UPI Circulars, SEBI has set out specific requirements for the redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the SEBI UPI Circular include the appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked not later than one day from the date on which the Basis of Allotment is finalised. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors' complaints in this regard, the relevant SCSB as well as the post-issue BRLM will be required to compensate the concerned investor.

All SCSBs offering the facility of making applications in public issuer shall also provide the facility to make applications using the UPI Mechanism. The Issuer has appointed one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchange and NPCI in order to facilitate the collection of requests and/or payment instructions of the Retail

Individual Applicants into the UPI payment mechanism.

The processing fees for applications made by UPI Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks make an application as prescribed in Annexure I of SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, and provide written confirmation on compliance with SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, read with SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021.

Further, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/45 dated April 5, 2022, all UPI Bidders applying in public Offers where the application amount is up to ₹ 5 lakhs shall use the UPI Mechanism and shall also provide their UPI ID in the Bid cum Application Form submitted with any of the entities mentioned herein below:

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and Foreign Exchange Management Act, 1999 (“**FEMA**”). While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the Reserve Bank of India (“**RBI**”) and Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (“**DPIIT**”).

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated Foreign Direct Investment Policy notified by the DPIIT File No. 5(2)/2020-FDI Policy dated October 15, 2020, with effect from October 15, 2020 (the “**FDI Policy**”), which consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT or the DPIIT that were in force and effect prior to October 15, 2020. The Government of India proposes to update the consolidated circular on FDI Policy once every year and therefore, the FDI Policy will be valid until the DPIIT issues an updated circular.

In terms of the FEMA NDI Rules, a person resident outside India may make investments into India, subject to certain terms and conditions, and provided that an entity of a country, which shares land border with India or the beneficial owner of an investment into India who is situated in or is a citizen of any such country, shall invest only with government approval.
